This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. WHEREAS, The House of Assembly, now in session, notes with deep sorrow the untimely death of our former President, Theodore Roosevelt; and

WHEREAS, His sturdy Americanism, his high ideals, his fearlessly aggressive spirit, his patriotic attitude upon public questions have marked him pre-eminently as a leader, while his marvelously active life and his great versatility in public service have formed, for many years, an important part of the history of the republic he loved and so labored to maintain in its integrity, for the benefit of generations yet to come; therefore, be it

*Resolved, by the House of Assembly of the State of New Jersey,* That in the demise of this great American our country has sustained an irreparable loss; that there has gone out from us a foremost citizen whose patriotism, courage and devotion to the highest and truest ideals were at all times an inspiration not only to our own citizenry but to the peoples of the world.

As an administrative officer, soldier, governor, President, author, explorer and publicist, he has left to the world a heritage rich in the examples of faithful performance, indomitable battle against evil, bravery in conflict and devotion to flag and country that will ever make men nobler in thoughts and worthier in action. As a crusader he blazoned the way to the establishment of industrial and social righteousness, and has been stricken at the very height of his usefulness and virility in seeking to solve the problems of the reconstruction and readjustment of a world devastated by war.

*Be it further resolved,* That a copy of these resolutions be forwarded to the stricken family and that we cause the same to be placed upon our Minutes.

Mr. Barrett raised a point of order that Mr. Kellam's resolution was not in order.

The Clerk decided that Mr. Barrett's point of order was not well taken, Mr. Kellam's resolution being in order because it provided for the election of a Speaker.

After remarks upon the resolution by Messrs. Hershfield, Freund, Lewis, Judge, Moore, Greaves, Snow, Simpson, Augenblick, White and Tozer, the Clerk called the roll, with the following result:

In the affirmative were—

Messrs. Amerman, Blackwell, Blair, Cochran, Downs, Evans, Fooder, Foxhall, Gill, Glover, Hagaman, Hershfield, Kellam, Lake, Lewis, Moore, Morgan, Pierson, Reeves, Roberts, Robinson, Rogers, Rowland, Tattersall, Tozer, Wallworth, Warner, Winne, Young Dallas G., Young David—30.

---

SATURDAY, January 25th, 1919.

The Clerk called the roll, and the following gentlemen appeared and answered to their names:

Messrs. Moore and Gill.

There being no quorum present, the House adjourned until Monday evening next, at 8 o'clock.

MONDAY, January 27th, 1919.

The House met at 8 o'clock P. M., Upton S. Jefferys, Clerk of the last House, presiding, pending the election of a Speaker.

Prayer was offered by the Rev. Alexander Corson, of Camden, N. J.

Upon calling the roll, the following gentlemen appeared and answered to their names:

Messrs. Agans, Amerman, Augenblick, Barrett, Blackwell, Blair, Bowen, Casale, Cochran, Coppinger, Cross, DeVoe, Donovan, Downs, Evans, Finley, Fooder, Foxhall, Freund, Gaede, Gill, Glover, Greaves, Hagaman, Headley, Hershfield, Hyland, Judge, Kellam, Kirkpatrick, Lake, Lewis, McAteer, Moore, Morgan, Muro, Nolan, Pierson, Reeves, Roberts, Robinson, Rogers, Rowland, Schultz, Shields, Siegler, Silver, Simpson, Snow, Stanton, Sullivan, Tattersall, Tozer, Wallworth, Warner, Whalen, Wight, Winne, Young Dallas G., Young David—60.

Absent—None.

The reading of the Minutes was dispensed with.

On motion of Mr. Kellam, seconded by Mr. Barrett, the House proceeded to the election of a Speaker.

The roll was called, with the following result:

For Mr. Pierson—

Messrs. Amerman, Blackwell, Blair, Cochran, Downs, Evans, Fooder, Foxhall, Glover, Hagaman, Hershfield, Kellam, Lake, Lewis, McAteer, Moore, Morgan, Reeves, Roberts, Robinson, Rogers, Rowland, Tattersall, Tozer, Wallworth, Winne, Young Dallas G., Young David—28.

The Clerk announced that there was no election of a Speaker, as no candidate had received a majority of the votes of all the members of the House.

Mr. Barrett contended that Mr. McAteer had been elected Speaker, having received a majority of the votes of members present and voting, and that under the Constitution there was nothing to prevent the election by a majority of the members, there being a quorum present.

Mr. Kellam stated that there was neither law nor precedent to maintain Mr. Barrett's contention. He called attention to the resolution offered by Mr. Barrett on the first day of the session and adopted unanimously by the House, which resolution is as follows:

*Resolved,* That a majority of all the members-elect shall be requisite for the election of the Speaker, Clerk and other officers of this House, and the same vote shall be necessary to rescind this rule.

Mr. Barrett asked for a ruling by the Chair.

The Clerk stated that the announcement that there was no choice of a Speaker on the last ballot was in accordance with the rule adopted by the House, which rule would prevail until rescinded by the House.

Mr. Barrett moved, seconded by Mr. Bowen, that the House take a recess for one-half hour.

On which motion the ayes and nays were called, with the following result:

In the affirmative were—

Messrs. Agans, Augenblick, Barrett, Bowen, Casale, Coppinger, Cross, DeVoe, Donovan, Finley, Freund, Gaede, Greaves, Headley, Hyland, Judge, Kirkpatrick, McAteer, Muro, Nolan, Schultz, Shields, Siegler, Silver, Simpson, Snow, Stanton, Sullivan, Whalen, Wight—30.

Wallworth, Warner, Winne, Young Dallas G., Young David—30.

So the motion was lost.

Mr. Kellam moved, seconded by Mr. Moore, that the House proceed to the election of a Speaker.

On which motion the ayes and nays were called, with the following result:

In the affirmative were—

Messrs. Amerman, Blackwell, Blair, Cochran, Downs, Evans, Fooder, Foxhall, Gill, Glover, Hagaman, Hershfield, Kellam, Lake, Lewis, Moore, Morgan, Pierson, Reeves, Roberts, Robinson, Rogers, Rowland, Tattersall, Tozer, Wallworth, Warner, Winne, Young Dallas G., Young David—30.

So the motion was lost.

Upon motion of Mr. Barrett, the House took a recess until 9:30 P. M.

House reconvened at 9:30 P. M.

Mr. Barrett stated that the members on his side of the House having heard, earlier in the day, that the Attorney-General had been asked for an opinion as to how many votes were necessary to the election of a Speaker had raised the point on the last ballot for the protection of his party; that he now wished to state that the Democratic members would stand by their agreement as expressed in the resolution previously adopted and that there was not a Democratic member of the House who would accept the Speakership unless by a majority of the whole House, that is, by thirty-one votes.

Mr. Kellam stated that on his side of the House the intention was to play fair; that the Republican members had stood by the resolution and would continue to do so.

On motion of Mr. Barrett, seconded by Mr. Kellam, the House proceeded to the election of a Speaker.

The roll was called with the following result:

For Mr. Pierson—

On motion of Mr. Kellam, seconded by Mr. Barrett, the Clerk was instructed to break the seal and read the contents.

Whereupon the Clerk proceeded to read the Governor's communication, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 28th, 1919.

*To the Members of the House of Assembly:*

I appreciate fully the wisdom which caused the powers of our government to be divided into three distinct departments, the legislative, executive and judicial, and I have no desire to trespass in the slightest degree upon the prerogatives of the legislative branch. At the same time our responsibilities to the people of New Jersey are to an extent mutual, and I feel it my duty to address you on a subject which vitally affects all branches of our government and is of great moment to the people in whose interest government is maintained. In opinion, privilege and powers, we may be independent of each other in a constitutional sense, but unless we co-operate there is no progress and government ceases to function.

Two weeks of the legislative session as provided by the constitution have passed and the House of Assembly is still unprepared to carry out the responsibility for which its members were elected. The Senate has organized and is prepared for business. This situation presents a governmental anomaly which is absolutely indefensible and merits the impatience and resentment of the citizens of the State. Such a situation deprives New Jersey of an important arm of government at a most important time in her history—a time when the serious problems of reconstruction and industrial readjustment following the war demand the closest possible co-operation between all departments in the interest of the common weal and a time when the demobilization of our great land and sea forces makes it the patriotic and legal

duty of constituted government to assist in finding suitable employment in order to reinstate in the civil life from which they were taken the thousands who cheerfully demonstrated their willingness to sacrifice everything in answering their call to duty. New Jersey met all emergencies and phases of responsibilities during the war. We must not fall from this high standard during the reconstruction days of peace.

The problem of unemployment grows more serious daily. It is imperative that immediate consideration be given to acts already suggested and prepared by State and Federal agencies, looking to a partial solution of this great problem. We must supplement the patriotic and heroic spirit of our citizens who offered their lives in the common cause with non-partisan co-operation to provide for the welfare of these men. They performed their full duty. Now we have an opportunity to perform ours. Theirs was a voluntary offering and a sacrifice. Ours is a solemn obligation and a duty.

In addition to this paramount obligation the ordinary business of the State is suffering because of your failure to organize. As a concrete example, only last week New Jersey was called upon to provide a commission with power to represent the large milk industry of New Jersey from the producer and distributor standpoint and to meet with similar commissions of nearby States in order to protect the interests of New Jersey. All that New Jersey could do under the circumstances was to provide through a resolution of the Senate for the appointment of such a commission. Without such a resolution having received favorable action in both houses such a commission is clearly without the necessary power; the State cannot appropriate money for its use, and as a result New Jersey's large interests in the milk industry are without proper and adequate representation in the councils endeavoring to adjust this question of such extreme importance to all classes of our citizens.

The present delay is not only imposing a needless expense upon the taxpayers, but it is clearly evident that it must be settled or thousands of dependents in our institutions will, at the end

of the fiscal year, July 1st, be without the necessary appropriation to maintain them, and the business of the State will be in a position of total paralysis.

Similar situations have existed in the past in connection with the organization of the Assembly. In adjusting them precedents with which I assume you are familiar have been established. Someone must give way or only chaos can result. It should not be difficult for you gentlemen to decide, with all the facts and arguments that have been advanced, who, under the circumstances, is entitled to the honor of being elected Speaker. Whoever is Speaker, of course, in no way affects the right of the individual member to exercise all powers and prerogatives of the position of an individual Assemblyman or his opportunity to serve the people of the State. The Speaker is simply the presiding officer and his power is limited by the rules which you prescribe.

I should feel I had been negligent in my duties as Chief Executive of the State if I did not call your attention at this critical moment to these plain truths. I most earnestly implore you, gentlemen, to reflect upon the purpose for which you and I were honored with public confidence and placed in charge of the people's affairs, and, in the spirit of co-operation and an eye unselfishly focused upon public welfare, proceed to business without further delay.

Respectfully,

WALTER E. EDGE,

*Governor.*

Attest:

FRANCIS E. CROASDALE,

*Secretary to the Governor.*

The slip, as drawn out, showed the name of Hon. Arthur N. Pierson.

On motion of Mr. Kellam, seconded by Mr. Barrett, the House proceeded to the election of a Speaker.

Mr. Ralph N. Kellam, of Camden county, nominated the Hon. Arthur N. Pierson, of Union county, for Speaker.

Mr. James J. McAteer, of Hudson county, seconded the nomination of Mr. Pierson.

The Clerk thereupon announced that the Hon. Arthur N. Pierson, of Union county, having received a majority of the votes of all members of the House, was elected Speaker of the General Assembly for the session of nineteen hundred and nineteen.

The Clerk requested the Hon. James J. McAteer, of Hudson county, and the Hon. Henry G. Hershfield, of Passaic county, to act as a committee to escort the Speaker to the bar of the House, where the oath of office was administered to him by the Hon. Charles L. Morgan, of Union county.

The committee then escorted the Speaker to the chair.

Mr. Pierson, upon taking the chair, addressed the members as follows:

I would be unmindful of my first duty if I failed to recognize the gracious spirit of the Democratic Assemblymen who voted for me for this place of distinction. I am grateful for the honor conferred in electing me to the office of Speaker of this House. Under any circumstances, the responsibilities of this office are great, but I deem the responsibilities of Speaker, and indeed of membership in this Assembly, are greater than any since the establishment of our constitutional government.

It will be my constant endeavor to prove worthy of the trust you have imposed on me and administer the office in the interest of the people of the State.

Under our Constitution it is the duty of the Governor from time to time to communicate to the Legislature such recommendations as he may deem expedient. It is encumbent upon us to give such recommendations our careful consideration. I should also counsel thoughful deliberation upon all matters that come before us.

The social, economic and political life of our people, which are vital factors in our national structure, have undergone unprecedented strain. By the cessation of hostilities the tension has been released. Our Nation and our State face the problems of readjustment and reconstruction in which there are possibilities of tremendous import. This is the task entrusted to us. Under these conditions our responsibilities to preserve the orderly relations of society, industry and government are indeed great.

We should consider with serious purpose the effect of each act upon these fundamentals. We must recognize the State's obligation to the returning soldiers and sailors. Industry and enterprise must be encouraged and safeguarded. The employee and the employer each have rights which must be preserved. The future of three million people is in your keeping.

Whether we are to have a long or a short session is of little consequence. We have been elected to conduct the State's business in the interest of all its people, and should devote our energies to this end regardless of the time required for its accomplishment.

You have elected me to preside over your deliberations, but you are the agents responsible to the people for your acts. It is my purpose to assist you in every way to make the One Hundred and Forty-third Session of the Legislature one of profit to the people of the State.

On motion of Mr. Barrett, seconded by Mr. Kellam, the House proceeded to the election of a Clerk.

Mr. Hugh C. Barrett, of Essex county, placed in nomination Edward J. Handley, of the same county, for Clerk of the House.

Mr. Edric C. Greaves, of Essex county, seconded the nomination of Mr. Handley.

Upon calling the roll, Mr. Handley was elected by the following vote:

For Mr. Handley—

Messrs. Agans, Amerman, Augenblick, Barrett, Blackwell, Blair, Bowen, Casale, Cochran, Cross, DeVoe, Downs, Evans, Finley, Fooder, Foxhall, Freund, Gaede, Gill, Glover, Greaves, Hagaman, Headley, Hershfield, Hyland, Judge, Kellam, Kirkpatrick, Lake, Lewis, McAteer, Moore, Morgan, Muro, Nolan, Pierson, Reeves, Roberts, Robinson, Rogers, Rowland, Schultz, Shields, Siegler, Silver, Simpson, Snow, Stanton, Tattersall, Tozer, Wallworth, Warner, Whalen, Wight, Winne, Young Dallas G., Young David—57.

The Speaker declared Edward J. Handley, of Essex county, elected Clerk of the House of Assembly.

The Speaker requested the Hon. Ralph N. Kellam, of Camden county, and the Hon. Hugh C. Barrett, of Essex county, to act as a committee to escort the Clerk to the bar of the House, where the oath of office was administered to him by the Hon. Louis R. Freund, of Essex county.

On motion of Mr. Barrett, seconded by Mr. Kellam, a vote of thanks was extended to Upton S. Jefferys, of Camden county, Clerk of the last House, for the courteous, efficient and faithful manner in which he had presided over the deliberations of the House pending the election of a Speaker.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That when the House adjourn, it adjourn to meet on Tuesday, February 11th, at twelve o'clock noon.

Upon motion of Mr. Kellam, the House then adjourned.

The committee appointed to wait upon the Governor returned and reported that they had advised the Governor of the organiza-

tion of the House of Assembly by the election of Hon. Arthur N. Pierson, as Speaker, and Edward J. Handley, as Clerk, and that he had informed the committee that he would communicate with the House later, in writing.

A message was received from the Governor, by the hands of his Secretary, as follows:

## GOVERNOR'S MESSAGE.

GENTLEMEN OF THE LEGISLATURE:

There would be scarcely any occasion for an extended address at this time were it not for conditions growing out of the war. In former messages I outlined in detail a program for reorganization of the State Government along business lines, and with your hearty and unselfish co-operation that program has been fully carried out. You have provided legislation making possible the co-ordination of departmental activities and the centralization of our institutional property and its control. You have given laws looking toward a comprehensive system of State highways, interstate traffic facilities and port and canal development. In short, you have placed on the statute books all the legislation which was deemed necessary to meet both domestic needs and the emergencies of a war period. Some of these physical developments have necessarily been halted because of war responsibilities, but the laws are on the statute books and I look for a rapid resumption of the projects so auspiciously started.

It is particularly gratifying to be able to point to the splendid financial condition of New Jersey, especially in these days when all outlays necessarily have been abnormal. The State is prepared to meet the problems of reconstruction with a free balance in the treasury of over three million dollars, a condition absolutely unprecedented in the history of the State. I shall go into further detail concerning this and the financial affairs in my message concerning the budget.

PREPARATIONS FOR RETURNING SERVICE MEN.

Out of war, however, there arise conditions affecting industry, health, labor and trade which demand the earnest consideration of every State Government, as well as the National Government. For many weeks our State Department of Labor, through its employment bureau facilities and its careful post-war survey of industry, has been securing the means of livelihood for discharged soldiers and sailors—actually getting them jobs. Other State departments have been quietly studying conditions and preparing and are ready to equip you with all details and possibilities of the situation. By proclamation the efforts of all State and municipal departments and of all organizations have been mobilized and concentrated in one central channel toward the desired end. But more must be done, and on a larger scale. No task confronting you is nearly so important as providing for the smooth, convenient and satisfactory return to peaceful pursuits of the one hundred and fifty thousand Jersey patriots who within the last two years unselfishly gave up their ordinary occupations for military and kindred service. They dedicated their lives to the common cause; the least we can do is to dedicate our resources to their comfort and welfare.

No doubt private business, with its trained efficiency and unfailing resourcefulness, will absorb more of this released labor than we suspect. Nevertheless, it would be nothing short of a tragedy if without proper preparation the millions of men in the military service were to be suddenly and at one time thrown back into a labor market glutted, perhaps, by the slackening of activities naturally to be expected in munition factories and other strictly "war enterprises." The Federal Government appreciates this situation and will doubtless take such steps to meet it as will require the hearty co-operation of all State governments. New Jersey should be ready to give this co-operation without stint, and, as usual, anticipate the responsibility.

PLANS FOR FEDERAL CO-OPERATION.

I bespeak your prompt and earnest consideration of some practical plan for acquiring through co-operative Federal and State action some of the vast acreage of cut-over land in New Jersey, and also cleared land that is idle, for the purpose of providing farm homes for returning soldiers and sailors. New Jersey has available land—plenty of it—and I am sure we are ready to look after details of obtaining and parceling the farms if the Federal Government will attend to the financing. In the latter function the Federal Government has a much freer hand than the State. As one concrete suggestion, and awaiting definite Federal financing, I call your attention to the possibilities for so safeguarding and refining our Homestead Association Act (P. L. 1888, page 231) that these organizations be encouraged for the purpose of co-operating with the plan of Federal land banks and thus enabling service men to secure valuable farms without a penny of capital. These banks advance fifty per cent. of the purchase price for farm land, taking a mortgage payable in forty annual installments. Our Homestead Associations, if properly stimulated and encouraged, would play an important part in those cases where the seller of the farm declines to take a second mortgage for the balance of the purchase price; the association would take the second mortgage and advance the balance. This is one very successful function of the Hebrew Agricultural Aid Society, endowed with the Baron de Hirsch Fund, and I see no reason why the principle and practice cannot be extended for the benefit of all discharged soldiers and sailors through our encouragement, in every proper way, of associations formed for this purpose and adequately endowed by public-spirited and patriotic citizens of this State.

I submit, also, that the time is opportune for New Jersey to urge the Federal Government to take advantage of our legislation of 1917 and join with New Jersey in the immediate building of a cross-State ship canal. Federal legislation is pending. Here is a public work, not only highly valuable in the interest of the nation's trade, but also offering limitless opportunity for the

absorption of labor. Of course, immediate action is essential if the project is to serve the purpose of reconstruction. But nothing is impossible where there is a will. If the Federal Government is ready and acts, I recommend that New Jersey proceed immediately with its part of the bargain. As an augury of good faith let us, at this session, actually appropriate the money, contingent upon favorable action by Congress.

Of course, you will want to make proper financial provision for continuing the State Council of Defense, which will be helpful in all communities in the problems attending demobilization, and also for the Federal-State-Municipal Employment System, which is now exceptionally well organized in our State and already a potent factor in the solution of all employment problems.

### STEPS REQUIRING STATE INITIATIVE.

In addition to these steps of co-operation, I believe the problems following demobilization sufficiently important to warrant New Jersey taking the initiative as well.

Public works in both State and municipality which have been held up more or less by embargoes during the war should now be pushed with all intelligent vigor as one solution of the problem. Never was there less excuse for narrow, demagogic objections to the spending of public moneys wisely on needed public improvements. Under any circumstances I question the wisdom of political parties challenging each other or bidding for popular support on the alleged accomplishment of spending less money. New Jersey should spend more than it does on its roads, its institutions, educational and charitable, and improvements in the interest of happy, contented citizenship. Inability to expend public moneys prudently and intelligently is a political liability quite as intolerable as extravagance and waste; in fact, it amounts to the same thing, for public wealth uninvested, like the horse in the stable and idle machinery, represents loss. But, now, facing as we are the necessity of meeting exigencies and emergencies incident to post-war adjustment, the false economy

of refusing to progress because progressing costs money is revealed in all its folly and littleness.

PUSH ROAD BUILDING AS ONE SOLUTION.

At this time our greatest public work in New Jersey is the State Highway System, and I believe this project should be pushed so vigorously that it will provide employment for thousands of men returning from military service, if not actually in road building itself, then in the various industries from whence the supplies and equipment for road construction come.

I am aware of the fact that the platforms adopted by both political parties last fall promised a suspension of highway taxation until such time as hostilities ceased and normal prices returned. The first of these contingencies is disposed of; hostilities have ceased. The second is as emphatically satisfied when it is taken into consideration that the only tax levy which this session of the Legislature could possibly suspend would be that of 1919–20, or fees collectable in December next, and I believe it will be conceded that prices of materials and labor will be as nearly normal at that time as we can ever hope to have them. Nothing would be gained by paralyzing highway building in 1920 or later. In fact, actual harm would be done taxpayers of the State, for important roads which must be maintained would be going to rack and ruin in the meantime, occasioning a larger expenditure when the work is taken up ultimately. The sum of about six million dollars has been collected in the past two years under our scheme of raising three million dollars per year for a period of five years for our highway system. Under the first three million dollars contracts have been let for work on ten of the routes outlined, and I am advised by the Highway Department that during the coming year it will be possible to proceed with and complete all of these outstanding contracts, which were temporarily suspended under Federal orders. Again, the department has before it a program covering the work intended for 1919, to be paid for from the second tax levy of three million dollars, and purposes to have plans prepared so

that contracts may be let for the work under this program as soon as the construction season opens. Manifestly, this much of the road program, already in process, will afford a large and expanding field for labor, and I feel that nothing should be done which would in any way curtail the activities of the Highway Department subsequently. Let us encourage, too, treatment of dirt roads and other purely county or township highways by some common, State-supervised formula, so that these roads will not be things apart, but important links in the State chain of highways. The legislative committee will have important recommendations on this subject, and I bespeak your earnest consideration of the concrete form in which the matter will be presented.

HIGHWAY DEPARTMENT SOLIDLY FOUNDED AND PREPARED.

May I at this point digress for a moment to call your attention officially to facts touching upon the thorough organization and actual constructive accomplishments of the Highway Department as constituted in New Jersey. This is important, in my judgment, because it is your plain duty to stimulate and encourage in every way the Highway Department, in the big and important task ahead, if it is soundly organized and prepared for the job. What are the facts? The Highway Department, notwithstanding obstacles due to the war which I have recited elsewhere, is to-day a going concern with outstanding contracts amounting to $2,500,000.00; and it will be ready in the spring to let additional contracts to the amount of $3,000,000.00. Considering the State Highway tax levy of $3,000,000.00, the Motor Vehicle Fund apportioned among counties for road purposes, of $2,000,000.00, the State Aid Appropriations to counties of $500,000.00, the Township Aid Fund of $105,000.00, and the amounts spent by the various counties in conjunction with the State Motor Vehicle Fund and State Aid Fund over which the Highway Department exercises supervision by approval of plans and specifications and inspection—considering these latter amounts of $3,750,000.00, it will be seen

that the annual business of or funds administered by our Highway Department aggregates the grand total of $9,355,000.00. Contrast this with the further fact that the total annual cost of operating the Highway Department, including salaries, rentals, advertisements, postage, expenses of field forces, expenses of commission and the like, is $260,000.00, and it will be seen that it costs the State but $260,000.00 to administer $9,355,000.00, or a total expense of administration amounting to about three hundredths of one per cent. Further than this, the Department and its work are furnishing a splendid means for a practical adaptation of the State-use system by furnishing healthful employment to our institutional inmates. We shall have approximately sixteen miles of highway routes under construction by inmate labor during the coming summer, employing about 375 men, of which 225 will be quartered in camps; 75 will live at the Trenton institution, and 75 will live at the Rahway Reformatory. In addition we are mechanically equipped for and propose removing snow from the important Lincoln Highway this winter, and on this work inmate labor will likewise be used. These are facts which I ask you to bear in mind as having an important bearing in connection with any and all legislation concerning the future of New Jersey's highways.

### OTHER SUGGESTIONS FOR INDUSTRIAL STIMULATION.

In addition to the highway system, New Jersey holds much opportunity for assisting on its own initiative in the solution of the labor and industrial problems.

First, for instance, New Jersey is the very center of shipbuilding activity. It may be that you will be called upon to provide legislation assisting in giving permanency to these great shipbuilding establishments which have reared themselves practically over-night upon salt marsh. Any suggestions would naturally come from the industry itself.

Second, practical legislation may be found necessary in order that our public school system may lend itself to the ready rehabilitation of soldiers and sailors wounded in the military service.

Third, our river traffic and port projects can be so encouraged that a new demand will be created there for labor and industrial supplies.

Finally, let us not forget that the surest and most lasting policy to adopt in order to insure employment for all classes is to encourage business activity; to offer every co-operation with the construction of public works. Private business should be assured that there will be no unnecessary interference and, with the resumption of activity in all lines, idle labor will readily be absorbed and the problem of employment will solve itself.

All the charts and surveys in the world and all the high sounding, demagogic, Utopian theories for solving the problem over night to the contrary notwithstanding, the only solution to the unemployment problem is to provide the man with a job. Encourage healthy, legitimate business enterprise, and in the natural order of things the jobs will be waiting for the men to fill them.

I feel confident you will grasp every opportunity, respond to every call.

### A STATE GRATEFUL TO ITS HEROES.

By way of summarizing the industrial adjustment subject, let me say that unless we fully measure up to the vital needs of the day we are showing ourselves less efficient, less arduous in our patriotism, than those fellow citizens who risked everything, sacrificed all, for our political salvation. They have fought our battles of war for us; now let us fight their battles of peace for them. The heart of every Jerseyman quickens with pride and adoration as we contemplate their patient fortitude and cheerful sacrifices amid the cruel punishment and indescribable discomforts of St. Mihiel, their stout courage under the fire baptismal of Bonvaux Wood, their dogged persistency in the Argonne and before Verdun, and their irresistible valor and triumphant achievement on the Meuse and at Sedan. Our enthusiasm is unbounded, our appreciation defying expression, when we realize that it was the Jersey doughboy who pointed the wedge that crumbled the citadel of Hun defiance at Grandpre, that when

hostilities ceased it was the Jersey doughboy who was right at the heels of autocracy's forces, fleeing in disorder across the Meuse and beyond. Ungrateful, indeed, we would be if we did not take every means to demonstrate our appreciation. The mayors of New Jersey's cities, as you know, are striving as a body to arrange for a proper celebration, uniform throughout the State, in honor of the homecoming of our warriors. Their further object is to encourage the construction of necessary public improvements in all communities as memorials, suitably dedicated to the heroism of the Jersey boys of 1918. As a State we shall want to encourage these practical plans in every possible way, and legislation will probably be submitted to you to give municipalities more power in this connection.

HISTORY OF JERSEYMEN IN THE WAR.

All of us are so proud of the courageous achievements and recognized efficiency of Jerseymen in the war, so deeply appreciative of their noble sacrifices, that we would do more than celebrate, erect memorials and provide opportunity in civil life for those so fortunate as to return to us. We would collect and preserve and hand down to posterity the glorious record of their unselfish dedication and fine patriotism. I most earnestly ask for legislation authorizing and financing the preparation and publication of an official honor roll which will contain a complete historical sketch of every Jersey soldier's participation in the greatest war of all history. In order that this important work may be carried out thoroughly and expeditiously, under some responsible State head and yet without necessitating the creation of any new bureaus or boards when our present policy is to consolidate and co-ordinate governmental machinery, I suggest that in this legislation the State Librarian be charged with the responsibility of successfully completing this task, at a proper additional compensation, in order that the appropriation may be expended under his personal direction and supervision, and conducted in co-operation and collaboration with the State Adjutant General and such Federal departments as may be found necessary.

ENCOURAGEMENT OF EDUCATION IN HEALTH.

Public health as a responsibility of government has taken on new importance as a result of war-taught lessons. The operation of the national selective service regulations disclosed a percentage of physical disability wholly inexcusable in an enlightened age. Practically one-third of those called in the draft were found physically defective. What a travesty on our present policy in this connection, and what an opportunity for a real State investment! Our duty is to correct it by paying more attention to child hygiene, and I recommend not only that you continue to give the State's financial support to the Federal-State campaign of education, but also that you revise the school laws of the State in order that this vital subject of child hygiene be given the relative position among functions of the public school that its importance demands. The war has taught us the value of preventive medicines and given physicians and nurses equal eminence as educators with teachers in our schools and colleges. It has taught us the necessity of a new and more understandable relationship between the home, the school and the factory; that we must employ the powers of government to protect the bodies of our school children and our young workers from impairment, to save their brains and their souls from starvation.

PRACTICAL MEASURES AGAINST VENEREAL DISEASES.

One of the gravest public evils and dangers greatly emphasized, if not entirely disclosed, by the war calls aloud for intelligent, concerted public treatment. I refer to the alarming prevalence of venereal disease. Neither a false sense of the delicacy of the subject nor a natural desire to shift responsibility for a complex problem to the medical profession should influence us against facing this condition very frankly and using the powers of government to improve it in the interests of humanity. An official United States Army report informs us that three per cent. of the million draftees whose examination blanks first reached the Adjutant General's office in Washington had a venereal disease

when they reported at camp; that out of every one hundred men reporting from New Jersey in this first class of a million draftees one and fifty-five hundredths per cent. was afflicted. I am informed that over six thousand cases were under treatment at Camp Dix during a period of about six months; that the treatment of such cases at Camp Dix alone cost the Government something like $70,000 per month, not to mention the fact that of course the victims were useless from a military standpoint, and therefore added so much to the average cost per man of equipping the soldier for fighting. Reliable surgeons inform me that all of these cases were contracted prior to enlistment; that the men in many cases labored under the impression that they did not have the disease, owing to the faulty character of the treatment which they had received either from the drug store or from physicians unskilled in the special treatment required. Of course, all this ugly evidence discloses the lack and the vital necessity of some established place in all large communities where the proper treatment for these diseases may be had. I appreciate that New Jersey has legislation which makes the reporting of venereal disease cases obligatory. Reporting is all right as far as it goes, but the mere reporting of a disease neither prevents nor cures it. What is most needed is an easily accessible place where the right kind of treatment may be given without cost or embarrassment. Under the terms of the Chamberlain-Kahn bill New Jersey has received an appropriation of about $27,000 from the Federal Government for the campaign against venereal diseases, and the Federal Director for New Jersey is established here and doing good work. I understand that hereafter no appropriation will be forthcoming from the Federal Government for this purpose unless the State itself makes an appropriation, in which event the United States will duplicate the State appropriation up to $27,000. I very strongly urge the passage of an act which will not only fix a sum for New Jersey to appropriate in connection with the Federal plan of co-operation, but which will also, in some practicable way and under the Federal Director as a general State supervisor, encourage all larger municipalities and counties where no large cities are located to establish and maintain dis-

pensaries in connection with municipal or other hospitals, or, apart from such institution, where venereal disease may be treated free of charge and under the direction of competent physicians and surgeons responsible to the local governments and to the State. It occurs to me that our State policy toward the effective treatment of tuberculosis could be made to apply in a very practical way to the venereal disease scourge. Some New Jersey cities are voluntarily experimenting with intensive treatment of venereal diseases, but the effort should be uniform throughout the State since the disease is confined to no particular locality.

### ADDED POWER FOR HEALTH AUTHORITIES.

I would also call your attention to the necessity of clothing our State Department of Health with added powers in order that it may the more adequately cope with general epidemics; that is, epidemics which are not confined to any one locality, such as occurred recently in endeavoring to carry out a State policy to meet the ravages of influenza. The department should have full power to enforce necessary quarantine regulations anywhere.

I have already recommended that the school laws be changed so that additional means may be found for the re-education of wounded soldiers and sailors, and in order that more attention be given to the physical well-being of our young manhood and womanhood. In addition to this I understand that a comprehensive report will be made to you by the Legislative Committee, which for some time has been investigating the school laws with a view to necessary revision. I recommend laws which will carry out the practical recommendations of this committee.

### A NEW VISION FOR THE PUBLIC SCHOOL.

Conditions existing previous to our participation in the world war disclosed the fact that heretofore our devotion to the fundamental principle of an open door to all nationalities asking political and religious freedom has blinded us to the necessity, as a matter of self-preservation, of the prompt Americanization of

foreigners voluntarily taking up their residence in America. As a factor in such Americanization the potency and effectiveness of the public school system cannot be overestimated. The language and customs of America, including the political fundamentals upon which this government was erected, and the duties and responsibilities of citizenship, should take on new importance in the public school curriculum. A way must be found to teach them by the same practical and resultful method which has enabled hundreds of thousands of American boys, devoting only a few hours each week to the study of French during the period of military service of only six months in France, to speak French very comfortably and with an average vocabulary of a thousand words. I speak of this because it seems to me to contrast very sharply with the fact that in the past the average student of our school and college has shown considerably less mastery of foreign language after from four to six years of effort. In our revision of the school laws I believe we at all times should give preference to the practical over the purely theoretical; that we should guard our schools no less against the selfish or misguided schemes of the faddists than against the passiveness and idolatry of the past which keeps us in a rut. Legislation tending to further remove the schools from political control and to attract to the teaching profession through adequate salaries and congenial environments men and women of high attainment and ambition to serve commensurate with their ability, will assist us to reach the goal so much sought in public education.

### FUTURE MILITARY POLICY OF STATE.

It is much too early to formulate a definite military policy for the State. This, of course, must be wholly contingent on the military policy definitely adopted for the future by the Federal Government. Our National Guard lost its former unit identity in the process of federalization. Will there be a National Guard in the future? Will the National Guard Army be discharged as U. S. N. G. A. Reserves? Will the status and the national policy be such that the States would be in a position, if they saw fit, to

revive National Guard organizations as such? The answers to these propositions can be merely conjectured. In the meantime, I conceive it to be our duty to continue and encourage in every possible way the present State Militia. Further, I recommend that you provide any additional legislation that may be needed to continue, until we see further, the State Militia Reserves, for like the State Council of Defense, these local organizations will prove helpful in the work of reconstruction and industrial adjustment. Where we have the organization, it is merely a matter of detail to rearrange its functions.

### SOLDIERS' VOTING ACT CHANGES.

While the war is over it is possible that a considerable number of Jerseymen may be called upon to remain away from their legal residences in camps here or abroad for some time to come. In view of this fact I believe certain changes should be made in the soldiers' voting act based upon the recent and rather unsatisfactory experience. The provisions in the present statute obliging voting upon informal ballots to be done on election day and thereby necessarily allowing the boards of canvassers a period of thirty days after election in which to count ballots is, in my judgment, impractical and a direct invitation to fraud. The law should be so amended that the balloting may be done in a period sufficiently in advance of election day to make possible the receipt and counting of all ballots within a period not longer than ten days following the election. Certain duties imposed upon the Secretary of State in the present statute, such as ascertaining the names and post-office addresses of all men in the service at a certain period, have been found impossible of performance, and therefore should be modified in order that invitation for successful legal attack on technicalities be removed.

### REFORM OF PENSION SYSTEM.

A legislative commission has been investigating State and municipal pensions as they apply to public school teachers, policemen, firemen and other public employees. This commission has

reached the conclusion that our pension system is not on a sound financial basis, and that in some instances the pension methods are inequitable and unfair alike to the tax payers and to the class of employees affected. Of course, this is a situation so serious that it merits prompt and earnest legislative consideration. I recommend the careful consideration of bills which will be presented to you for the purpose of correcting the evils disclosed.

### POSSIBILITIES OF HEALTH INSURANCE.

No consideration of genuine pension reform, however, can be complete unless it contemplates as the logical and ultimate foundation of the pension system health insurance. I know what a vast subject this is and appreciate the difficulties which have conspired to make all past attempts at consideration merely cursory and superficial. Yet I cannot refrain from leaving it with you as a thought, whether it is found practicable to attempt it in this session or postpone it for further consideration. Health insurance would seem to be even more vitally important to any pension system than New Jersey has found compensation insurance to be to its workmen's compensation system; in fact, health insurance would provide additional supports for our workmen's compensation system by conserving the physical vigor of our people against the constantly increasing demands of industry upon physical endurance. By automatically providing medical care and health instruction it is both curative and preventive and therefore must certainly operate to reduce the burden of any compensation or pension system, no matter what class of private or public employees are affected.

### INCREASED COMPENSATION FOR INCAPACITATED WORKMEN.

It is our duty, it seems to me, to take into consideration at this time the fact that altered living conditions, involving greater expense in all human activity, have rendered the schedule adopted originally with our New Jersey Workmen's Compensation Act out of date and inadequate. The schedule needs revision in pro-

portion as it requires more money to-day for the family of an injured workingman to live and for the latter to secure satisfactory treatment and aid than it did at the time our law was enacted. New Jersey was the first State in the Union to pass a satisfactory compensation act as a fair and sensible substitute for the old, unfair, costly and wholly unsatisfactory method of emphasizing through law suit an employer's liability. We have an admirable statute and we are justly proud of it. Nevertheless, it may not be expected to remain a thing of admiration and an instrument of exact justice unless we keep it up to date and in concert with changing conditions. I firmly believe employers will heartily agree that the present rates of compensation are inadequate to meet the needs of the incapacitated workingman and his family or other dependents. To this extent the law should be improved.

RE-EDUCATION, REHABILITATION FOR INJURED WORKMEN.

While we are considering improvements in our Workmen's Compensation Law and health insurance, may I suggest that the principle of physical rehabilitation, and vocational training and guidance should eventually be extended to the industrial worker, as well as the injured soldier. It would certainly seem to be a far better economic proposition to expend the compensation stipulated for such rehabilitation and vocational instruction as might be necessary to make an injured worker a self-supporting citizen rather than to have this income expended with the sole thought of tiding the injured worker over the period when he is physically unable to work and leaving him at the last payment utterly unable to properly assume his previous obligations.

Neither is it sound policy to make payment of compensation predicated upon a moneyed consideration for a permanent injury, if a plan could be devised by which the man so afflicted could be placed in the position of a self-supporting worker rather than that of a pensioner. Moreover, the worker should not be penalized for an injury by being made solely a dependent. Re-education, fitting him for some service of a valuable nature, removes

him from a personal humiliation that he never deserved and is far more businesslike.

This subject is worthy of particular attention at this time by reason of the fact that much thought and energy will be given to this problem in helping the wounded soldiers, and much practical benefit can be derived from the experience gained. The organization and equipment found necessary for helping the soldiers could perhaps be made available for the injured industrial worker I commend this undertaking to your careful consideration.

### ADEQUATE REVENUE FROM STATE SERVICE.

In these times, when the burden upon taxpayers generally is necessarily heavy, owing to both national and local demands, it seems to me very important that the State should receive all possible revenue that may in justice be expected for State service. Last year legislation of this character was provided resulting in many thousands of dollars of additional revenue, particularly in the Department of Labor. May I suggest that department heads be consulted by legislative committees for suggestions upon similar legislation this year?

### TOLL BRIDGES.

Your attention will be directed to confusion in existing laws for the elimination of toll bridges. I urge amendatory legislation, so that a workable proposition, alike in Pennsylvania and New Jersey, may be devised for the condemnation of these structures when that course is necessary.

### GROSS RECEIPTS TAX ACT.

While it is generally conceded that the gross income tax is a more scientific method than the old property tax, still I am sure it was not the intent of the last Legislature that the gross receipts tax act upon public utility companies should operate to the disadvantage of any municipalities through loss of revenue. If

upon investigation such a result is apparent, I recommend added legislation designed to correct this situation, but maintaining the new system.

### POST-WAR HOUSING PROBLEMS.

When the war started the State Department of Labor had made considerable progress on a plan to have manufacturers locating in suburban towns give consideration to a housing program at the same time that the sufficiency of their factory building and equipment was being passed upon by State officials. Of course, the war interrupted any extensive operation of the plan, but if anything, the elaborate housing programs engineered by the great industries springing up as a result of the war merely served to emphasize the importance of government paying attention to housing conditions as well as to the safety and comfort of factory construction. I heartily favor any legislation which may be found necessary in order that through our Department of Labor, and perhaps with the co-operation of Federal authorities, a standard housing plan may be adopted in connection with our industries and effectively carried out. It encourages healthful home surroundings and town development and discourages overcrowded tenements with the many consequent evils arising thereby.

### A PERSONAL WORD.

I look forward with absolute confidence to a businesslike session, which will adequately serve the real needs of the hour and yet omit legislative surplusage serving purely personal ends and clogging the statute books. I feel certain that the even division of political power in one branch of the Legislature will not in any way interfere with the harmonious relations which we have hitherto enjoyed in our common task, or militate in any way against legislation so urgently needed in the interests of national and State welfare. I offer executive co-operation of the heartiest character, without regard to the personal or political

authorship of bills, to the end that this session may well serve the purposes and needs of the people whom we represent.

May I embrace this opportunity, the last general message I shall submit to you, to express my earnest and sincere appreciation of the uniform co-operation and consideration those of you returning have universally shown, and to express the conviction that this relationship will continue whatever our separate responsibilities may be.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 10th, 1919.

*To the Legislature:*

I deem it imperative at this time to submit a recommendation with reference to the various bills now pending, awaiting your consideration, which provide for increases in the salaries of public employees. In doing so I am positive it is not necessary for me to assure you that I haven't any desire whatever to suggest what your action should be with any individual measure. I have opportunity to express my view later. On the other hand,

it seems to me in view of the facts that some co-operation in a matter of this kind is in the interest of a businesslike handling of the subject.

I agree that reasonable increases from time to time in the compensation of public officials is perfectly justifiable when these increases conform with increased duties or greater responsibilities, or when they operate proportionately with unavoidable increases in the cost of living. Otherwise, the salaried servant of the public would be treated inconsiderately and with prejudice. But I emphasize, and I know you agree with me, that any such increases must be reasonable and justified by the facts, else you and I are delinquent in our public obligations and faithless to our trust of carefully guarding the public treasury and conscientiously managing the people's business as we would manage our own.

One of the measures to which I refer provides, in a single bill, for certain specified increases in the salaries now paid the Chancellor and Chief Justice, the Vice-Chancellors and Associate Justices and Circuit Court Judges. I seriously question the advisability of this proposed "blanket" method of increasing salaries. It savors too much of the "rider" expedient whereby undesirable legislation frequently travels through on the back of legislation that is desirable and popular. Some of the increases authorized by this bill, if it passes in its present form, might be merited and others quite the opposite, so that when it reached the Governor he would be obliged either to approve all of the increases in order to enact those which were justified or accept the alternative of disapproving the bill, nullifying increases which were necessary and fair, in order to prevent an imposition upon the public with respect to the others. I desire to state very frankly that in the event of such a contingency I should not hesitate an instant to take the latter course.

In order that no injustice may be done, either to individuals or to the State, and that the Legislative and Executive branches of the government have a fair opportunity intelligently to study the economic problem of making public salaries conform with work and living costs, might it not be possible for representative committees of the Senate and Assembly to consider all salary bills in relation to each other so that the final action of the Legislature as to offices of the major grade may be in conformity with the State's policy as to the offices in the minor grade, under Civil Service? In other words, increases would be consistent and uniform as to all offices, rather than arbitrary and partial. I be-

lieve that such a plan will greatly facilitate legislation and give general satisfaction.

Respectfully,

[L. S.] WALTER E. EDGE,

Attest: *Governor.*

FRANCIS E. CROASDALE,

*Secretary to the Governor.*

By Mr. Cochran:

WHEREAS, The honorable State Senators of New Jersey appear to have determined that the very important part of this

State, heretofore known as Atlantic county, has, in fact, no existence, although this great county contains that world-renowned and progressive all-the-year pleasure and health resort, Atlantic City; is the home of our Governor and United States Senator-elect, one of the very ablest statesmen of our time, and is the frequent abiding place of practically all men of nation-wide prominence, including the aforesaid State Senators; it is as well the home of the vision that real economy and efficiency shall forever be the guiding star in the conduct of our State affairs, and that "never again" shall influence of any kind be used to obtain office for personal friends or political supporters; and

WHEREAS, The said State Senators, after careful deliberation, appear to have ignored the Senator from Atlantic county, duly elected for the term of three years, the only State Senator who, so far as known, volunteered his services to the Nation during the World War; therefore,

*Be it resolved,* That this House of Assembly respectfully suggest to the honored Senators that they promptly take such action as will result in again placing Atlantic county upon the map and re-establish the admiration in which the said honored Senators were formerly held in Atlantic City, for, be it remembered, July first swiftly approaches.

Was taken up.

Mr. Morgan offered the following proposed amendments to Assembly Bill No. 247, which were read and adopted:

Next after the enacting clause insert a new section No. 1.

1. Section twelve of the act to which this act is an amendment is hereby amended to read as follows:

12. For the purpose of uniform accounting and budget control:

(a) The purpose of the budget as set forth in this act is to control all expenditures for the year under budget appropriations (excepting those authorized under section twenty-one for which interest deficiency notes may be issued and under section twenty-five for emergencies for which appropriation is not made in the budget and excepting appropriations for such purposes, not current expenses, for which notes, bonds or other obligations may be issued.) The revenues to support budget appropriations for the year are those included under the heading "Anticipated Revenues" in the budget or tax ordinance (or resolution).

The term budget appropriations shall mean the appropriations made in the budget or tax ordinance (or resolution).

(b) All revenues dedicated by any statute to any specific purpose, or revenues received by any institution or department of the government as fees, rentals or charges which are not controlled under subsection (e) of this section, shall hereafter be scheduled under "Miscellaneous Revenues" in the budget, and when received shall be placed in the general treasury, and shall be applicable to any lawful purpose of expenditure under budget appropriations, excepting revenue dedicated to pension funds and such as are hereinafter specifically released under subsection (k) of this section; *provided, however,* that this shall in no way affect the operation of "An act to amend an act entitled 'An act to amend an act entitled "An act respecting the fees of surrogates, register of deeds and mortgages, county clerks and sheriffs in certain counties of this State, and providing salaries for such officers," approved March thirtieth, one thousand nine hundred and six,' approved March twenty-ninth, nineteen hundred and sixteen," which act was approved March twenty-ninth, nineteen hundred and seventeen; *provided, further,* should such revenues thus dedicated have been estimated by the institution or department receiving same as a part of the revenues to support such institution or department for the period for which the current budget shall operate, then, and in such case, the provisions of this subsection (b) shall not operate until the beginning of the fiscal year next ensuing.

(c) There shall be included in every budget in connection with the statement of anticipated revenues the sources of revenues which are required by law to be applied to any specific purpose, and which are not released by the provisions of subsection (b) of this section; to identify the dedication of such revenues a brief statement as to the purpose to which such revenues are dedicated shall be made, and in connection with the appropriation

to which such revenues are dedicated, a like statement shall be made as to the source from which such revenues are obtained but the amounts may be omitted in either case.

(d) In case the anticipated earnings or the principal of any surplus of the sinking fund is to be used to reduce the annual requirements shall be stated in connection with the list of appropriations, and the amount of the surplus of the sinking fund to be used shall also be stated, and only the amount to be raised in the budget shall be extended as the appropriation for sinking fund purposes.

(e) All moneys received as fees, rentals or charges for service rendered by any municipal enterprise or utility shall be kept in a separate account, and the operating and upkeep costs, as well as the interest and principal payments upon the indebtedness incurred for the creation of such enterprise or utility, shall be charged to such account. If as the result of the operation of such enterprise or utility under the system of accounting thus directed there shall prove to be a surplus, or such surplus can be reasonably anticipated, then such surplus, when authorized by the board or body controlling the same, may be included under the anticipated revenues for the year as an item of miscellaneous revenue, under the caption of "Surplus from ..... (name of enterprise or utility) Account." If in the operation of such enterprise or utility, under the system of accounting herein directed, there shall be a deficit or an anticipated deficit, then an amount representing such deficit shall be included in the budget appropriations for the year, under the caption of "Deficit in ..... (name of enterprise or utility) Account." If, however, such deficit shall prove to be in excess of the amount so anticipated, then in such case the amount of the excess shall be included in the budget or tax levy of the following year. This provision shall not supersede the direction of accounting or the specific dedication of the receipts from an enterprise or utility as provided in any law which authorized the establishment or creation of such enterprise or utility, unless so directed by the board or body controlling the same.

(f) That in connection with the certificates to be forwarded by the Commissioner of Municipal Accounts to the governing body of any municipality or county, or the board of education of any school district, setting forth the sinking fund requirements for the fiscal year, there shall also be included a requirement for appropriation on account of bonds falling due within such year, payment for which should be included in the budget appropriations for the year, which requirement shall be man-

datory upon the municipality, county or school district, as the case may be, and shall be included in the appropriations for the year.

(g) Wherein the provisions of any charter or law require a board or commission having charge of any special department of work to certify the amount of the annual requirements for the support of such work to the assessor of any taxing district, such board or commission shall also certify such requirements for the ensuing fiscal year to the governing body of the municipality or county on or before the thirtieth day previous to the close of the fiscal year, and the amount as certified shall be included in the budget for the year. This provision shall in nowise relieve the assessor or assessors from their duty of determining that such appropriation has been provided for in the budget, and in case it has not been included in the budget of the municipality or county, as the case may be, the assessor shall include same in the certificate of funds to be raised by taxation to the County Board of Taxation, as required by law.

(h) The anticipated receipts from poll tax, dog tax and franchise tax shall be scheduled under miscellaneous revenues in the budget, and shall be treated and controlled as set forth in this act. The bank stock tax shall not be included under the schedule of anticipated revenues, as this tax is, by direction of law, deducted by the County Board of Taxation from the amount of moneys to be raised by taxes as certified to the County Board of Taxation.

(i) When any municipality or county has been allotted a percentage of motor vehicle moneys, the governing body of such municipality or county receiving such allotment shall include an amount to be estimated by them, which will accrue to such municipality or county as a result of such allotment as anticipated revenues in its budget under the head of miscellaneous revenues, but such estimated amount shall not be in excess of the amount that would have resulted from such percentage allotment if figured upon the moneys applicable for road repairs arising from motor vehicle receipts in the previous year; a corresponding item shall be included as an appropriation under the head "State-aid road repairs." Should the moneys finally received from such allotment be in excess of the amount anticipated as stated in the budget, or should a supplemental allotment be granted from such motor vehicle fund, then the amount of such excess and the amount of such supplemental allotment shall, notwithstanding the restriction of this act, become immediately available for the purposes for which such moneys were allotted.

(j) Wherein the County Board of Taxation shall in determining the rate for any municipality authorize a levy of taxes of an amount greater than that certified by the governing body as "the amount to be raised by taxes," such excess shall not be available for expenditure, but shall be set aside, and at the end of the year shall be used to offset the abatement of taxes, and any balance remaining shall be transferred to the surplus revenue account.

Renumber section 1 and make it section 2.

After line 75 on page 5, insert a new section, number 3.

3. Section 25 of the act to which this act is an amendment is hereby amended to read as follows:

25. Upon the happening of any emergency caused by fire, flood, explosion, storm, epidemic, recovery of judgment, act of God or the public enemy, or for the preservation of order or public health, or for restoring to a condition of usefulness any public property, the usefulness of which has been destroyed by accident, or by happening that could not have been anticipated, or in case the revenues anticipated from licenses for the sale of vinous, spirituous or malt liquors shall, as a result of the enactment of any State or Federal legislation or the operation of a constitutional amendment, or by reason of the vote under a referendum provided by any State law, be for any fiscal year less than the amount stated as anticipated in the budget for that year, or for the costs of holding any election brought about by a petition of the electorate or an election instituted by the governing body, or for mandatory expenditures imposed by any statute approved subsequent to twenty days prior to the passage of the tax ordinance (or resolution), or for added requirements fixed by the Board of Children's Guardians, occasioned by the increase of the number of children for whom care is required or by an increase in the weekly rate to be paid for such children's care made subsequent to the adoption of the tax resolution, any municipality or county being without funds to meet the necessities and the conditions created thereby may, by a vote of at least two-thirds of the members of the governing body of such municipality or county, make appropriations therefor and fund the expenditures made thereunder by the issue of "Emergency Notes" or "Emergency Bonds," which shall bear upon their face a statement of the cause or event with reference to which they are issued, and the date or period thereof. The amount of all such notes or bonds issued between the first day of the fiscal year and the passage of the tax ordinance (or resolution), shall be included in the tax levy for that year, and shall be paid on or

before the thirty-first day of December of such fiscal year, and all such notes or bonds made subsequent to the passage of the tax ordinance (or resolution), and before the last day of that fiscal year, shall be placed in the tax levy of the following year and retired on or before the thirty-first day of December of the following year; *provided, however,* that if the inclusion of the entire amount of such notes or bonds in the tax levy of one year, as hereinbefore directed, would cause an increase in the tax rate of more than one-third of a mill on the dollar, provision for the payment of such emergency notes or bonds, or renewals thereof, shall be made by the placing in the tax levy of that year, and of each and every year thereafter, a levy of an amount equal to not less than one-third of a mill on the dollar of the assessed valuation of the municipality or county, as the case may be, until said notes or bonds are retired; *provided also,* that in any such event the time for the retirement of any such notes or bonds, or any renewals thereof, may be determined upon the assumption that the assessed valuation of the municipality or county for any succeeding year will be the same as the last assessed valuation at the time such notes or bonds or renewals thereof are issued; *provided, further,* that the determination of the governing body, embodied in the resolution authorizing such notes or bonds, or any renewals thereof, if adopted by a three-fourths vote, shall be conclusive as the character and existence of an emergency within the meaning of this act; *provided also,* that no such emergency notes or bonds issued after July first, one thousand nine hundred and nineteen, shall be renewed: *provided, however,* that the provisions of "An act to authorize and regulate the issuance of bonds and other obligations, and the incurring of indebtedness by county, city, borough, village, town, township or any municipality governed by an improvement commission," approved March twenty-second, one thousand nine hundred and sixteen, and constituting chapter two hundred and fifty-two of the laws of one thousand nine hundred and sixteen, and amendments thereto and supplements thereof, shall not be deemed in any respect affected or limited by this section; and said act shall be deemed additional and independent authority (within the scope of the authority conferred by it) for the financing of the purposes provided for in this section.

Assembly Bill No. 247, entitled "An act to amend an act entitled 'An act to amend an act entitled "An act concerning municipal and county finances," approved March twenty-eighth, one thousand nine hundred and seventeen,' " approved March fourth, one thousand nine hundred and eighteen.

Mr. Morgan offered the following amendments to Assembly Bill No. 247, which were read and adopted:

Next after the enacting clause, insert a new section, number one:

1. Section twelve of the act to which this act is an amendment is hereby amended to read as follows:

12. For the purpose of uniform accounting and budget control:

(a) The purpose of the budget as set forth in this act is to control all expenditures for the year under budget appropriations (excepting those authorized under section twenty-one for which interest deficiency notes may be issued and under section twenty-five for emergencies for which appropriation is not made in the budget and excepting appropriations for such purposes, not current purposes, for which notes, bonds or other obligations may be issued). The revenues to support budget appropriations for the year are those included under the heading "Anticipated Revenues" in the budget or tax ordinance (or resolution).

The term budget appropriations shall mean the appropriations made in the budget or tax ordinance (or resolution).

(b) All revenues dedicated by any statute to any specific purpose, or revenues received by any institution or department of the government as fees, rentals or charges which are not controlled under subsection (e) of this section, shall hereafter be scheduled under "Miscellaneous Revenues" in the budget, and when received shall be placed in the general treasury, and shall be applicable to any lawful purpose of expenditure under budget appropriations, excepting revenue dedicated to pension funds and such as are hereinafter specifically released under subsection (k) of this section; *provided, however,* that this shall in no way affect the operation of "An act to amend an act entitled 'An act to amend an act entitled "An act respecting the fees of surrogates, register of deeds and mortgages, county clerks and sheriffs in certain counties of this State, and providing salaries for such officers," approved March thirtieth, one thousand nine hundred and six,' approved March twenty-ninth, nineteen hundred and sixteen," which act was approved March twenty-ninth, nineteen hundred and seventeen.

(c) There shall be included in every budget in connection with the statement of anticipated revenues the sources of revenues which are required by law to be applied to any specific purpose, and which are not released by the provisions of subsection (b) of this section; to identify the dedication of such revenues a brief statement as to the purpose to which such revenues are dedicated shall be made, and in connection with the appropriation to which such revenues are dedicated, a like statement shall be made as to the source from which such revenues are obtained, but the amounts may be omitted in either case.

(d) In case the anticipated earnings or the principal of any surplus of the sinking fund is to be used to reduce the annual sinking fund requirements, the full amount of such annual re-

quirements shall be stated in connection with the list of appropriations, and the amount of the surplus of the sinking fund to be used shall also be stated, and only the amount to be raised in the budget shall be extended as the appropriation for sinking fund purposes.

(e) All moneys received as fees, rentals or charges for service rendered by any municipal enterprise or utility shall be kept in a separate account, and the operating and upkeep costs, as well as the interest and principal payments upon the indebtedness incurred for the creation of such enterprise or utility, shall be charged to such account. If as the result of the operation of such enterprise or utility under the system of accounting this directed there shall prove to be a surplus, or such surplus can be reasonably anticipated, then such surplus, when authorized by the board or body controlling the same, may be included under the anticipated revenues for the year as an item of miscellaneous revenue under the caption of "Surplus from ..... (name of enterprise or utility) Account." If in the operation of such enterprise or utility, under the system of accounting herein directed, there shall be a deficit or an anticipated deficit, then an amount representing such deficit shall be included in the budget appropriations for the year, under the caption of "Deficit in ..... (name of enterprise or utility) Account." If, however, such deficit shall prove to be in excess of the amount so anticipated, then in such case the amount of the excess shall be included in the budget or tax levy of the following year. This provision shall not supersede the direction of accounting or the specific dedication of the receipts from an enterprise or utility as provided in any law which authorized the establishment or creation of such enterprise or utility, unless so directed by the board or body controlling the same.

(f) That in connection with the certificates to be forwarded by the commissioner of municipal accounts to the governing body of any municipality or county, or the board of education of any school district, setting forth the sinking fund requirements for the fiscal year, there shall also be included a requirement for appropriation on account of bonds falling due within such year, payment for which should be included in the budget appropriations for the year, which requirement shall be mandatory upon the municipality, county or school district, as the case may be, and shall be included in the appropriations for the year.

(g) Wherein the provisions of any charter or law require a board or commission having charge of any special department of work to certify the amount of the annual requirements for the

support of such work to the assessor of any taxing district, such board or commission shall also certify such requirements for the ensuing fiscal year to the governing body of the municipality or county on or before the thirtieth day previous to the close of the fiscal year, and the amount as certified shall be included in the budget for the year. This provision shall in nowise relieve the assessor or assessors from their duty of determining that such appropriation has been provided for in the budget, and in case it has not been included in the budget of the municipality or county, as the case may be, the assessod shall include same in the certificate of funds to be raised by taxation to the county board of taxation, as required by law.

(h) The anticipated receipts from poll tax, dog tax, gross receipts tax and franchise tax shall be scheduled under miscellaneous revenues in the budget, and shall be treated and controlled as set forth in this act. The bank stock tax shall not be included under the schedule of anticipated revenues, as this tax is, by direction of law, deducted by the county board of taxation from the amount of moneys to be raised by taxes as certified to the county board of taxation.

(i) When any municipality or county has been allotted a percentage of motor vehicle moneys, the governing body of such municipality or county receiving such allotment shall include an amount to be estimated by them, which will accrue to such municipality or county as a result of such allotment as anticipated revenues in its budget under the head of miscellaneous revenues, but such estimated amount shall not be in excess of the amount that would have resulted from such percentage allotment if figured upon the moneys applicable for road repairs arising from motor vehicle receipts in the previous establishment or creation of such enterprise as an appropriation under the head of "State-aid road repairs." Should the moneys finally received from such allotment be in excess of the amount anticipated as stated in the budget, or should a supplemental allotment be granted from such motor vehicle fund, then the amount of such excess and the amount of such supplemental allotment shall, notwithstanding the restriction of this act, become immediately available for the purposes for which such moneys were allotted.

(j) Wherein the county board of taxation shall, in determining the rate for any municipality, authorize a levy of taxes of an amount greater than that certified by the governing body as "the amount to be raised by taxes," such excess shall not be available for expenditures, but shall be set aside, and at the end of the year shall be used to offset the abatement of taxes. and any bal-

ance remaining shall be transferred to the surplus revenue account.

Renumber section one and make it section two.

After line seventy-five, on page five, insert a new section number three.

3. Section twenty-five of the act to which this act is an amendment is hereby amended to read as follows:

25. Upon the happening of any emergency caused by fire, flood, explosion, storm, epidemic, recovery of judgment, act of God or the public enemy, or for the preservation of order or public health, or for restoring to a condition of usefulness any public property, the usefulness of which has been destroyed by accident, or by happening that could not have been anticipated, or in case the revenues anticipated from licenses for the sale of vinous, spirituous, or malt liquors shall, as a result of the enactment of any State or Federal legislation or the operation of a constitutional amendment, or by reason of the vote under a referendum provided by any State law, before any fiscal year less than the amount stated as anticipated in the budget for that year, or for the costs of holding any election brought about by a petition of the electorate or an election instituted by the governing body, or for mandatory expenditures imposed by any statute approved subsequent to twenty days prior to the passage of the tax ordinance (or resolution), or for added requirements fixed by the Board of Children's Guardians, occasioned by the increase of the number of children for whom care is required or by an increase in the weekly rate to be paid for such children's care made subsequent to the adoption of the tax resolution, any municipality or county being without funds to meet the necessities and the conditions created thereby may, by vote of at least two-thirds of the members of the governing body of such municipality or county, make appropriations therefor and fund the expenditures made thereunder by the issue of "Emergency Notes" or "Emergency Bonds," which shall bear upon their face a statement of the cause or event with reference to which they are issued, and the date or period thereof. The amount of all such notes or bonds issued between the first day of the fiscal year and the passage of the tax ordinance (or resolution) shall be included in the tax levy for that year, and shall be paid on or before the thirty-first day of December of such fiscal year, and all such notes or bonds made subsequent to the passage of the tax ordinance (or resolution), and before the last day of that fiscal year shall be placed in the tax levy of the following year, and retired on or before the thirty-first day of December

of the following year; *provided, however,* that if the inclusion of the entire amount of such notes or bonds in the tax levy of one year, as hereinbefore directed, would cause an increase in the tax rate of more than one-third of a mill on the dollar, provision for the payment of such emergency notes or bonds, or renewals thereof, shall be made by the placing in the tax levy of that year, and of each and every year thereafter, a levy of an amount equal to not less than one-third of a mill on the dollar of the assessed valuation of the municipality or county, as the case may be, until said notes or bonds are retired; *provided, also,* that in any such event the time for the rtirement of any such notes or bonds, or any renewals thereof, may be determined upon the assumption that the assessed valuation of the municipality or county for any succeeding year will be the same as the last assessed valuation at the time such notes or bonds or renewals thereof are issued; *provided, further,* that the determination of the governing body, embodied in the resolution authorizing such notes or bonds, or any renewals thereof, if adopted by a three-fourths' vote, shall be conclusive as to the character and existence of an emergency within the meaning of this act; *provided, also,* that no such emergency notes or bonds issued after July first, one thousand nine hundred and nineteen, shall be renewed; *provided, however,* that the provisions of "An act to authorize and regulate the issuance of bonds and other obligations, and the incurring of indebtedness by county, city, borough, village, town, township or any municipality governed by an improvement commission," approved March twenty-second, one thousand nine hundred and sixteen, and constituting chapter two hundred and fifty-two of the laws of one thousand nine hundred and sixteen, and amendments thereto and supplements thereof, shall not be deemed in any respect affected or limited by this section; and said act shall be deemed additional and independent authority (within the scope of the authority conferred by it) for the financing of the purposes provided for in this section.

The following communication was sent to the desk and read by the Clerk:

BOONTON, N. J., March 11th, 1919.

*Hon. Arthur N. Pierson, Speaker, House of General Assembly, Trenton, N. J.:*

MY DEAR MR. PIERSON—I am enclosing herewith original petition addressed to the General Assembly by the Mayor and Board of Aldermen of the town of Boonton, New Jersey. On behalf of the town, I request you to see to it that this petition actually comes before the Assembly at a very early date.

The subject-matter of this petition is of some moment to Boonton. The town's special officer, Patrick Guiton, was wilfully murdered on September 9th, 1918, while in the performance of his duty as special officer. The governing body of the town, and I am sure it reflects the sentiment and feeling of the entire community, is strongly of opinion that the prosecutor did not perform his duty in the prosecution of the case of the State against Reilly, who was indicted for the murder of Guiton. I have made a very exhaustible investigation, and submitted a full report thereof to the Board of Aldermen. As a result of that investigation and report, and the board's own feeling and judgment in the matter, the within petition is presented.

I would be obliged to you if you would acknowledge receipt of the petition, so that I may know that it has actually reached your hands. Having met you at Boonton, at a dinner given by Mayor Hammond some months ago, I am quite sure that you will do what you can to at least bring this matter properly to the attention of the Assembly.

I am,

Yours very truly,
(Signed) FRANK W. PIERCE,
*Attorney and Counselor-at-Law.*

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
*To the Assembly:* April 7th, 1919.

I return herewith, without my approval, Assembly Bill No. 31, which would make it unlawful for persons in any vessel propelled through the air to shoot at or kill certain water wild fowl. Certainly there is no immediate necessity for such legislation. If the necessity does arise there will be ample opportunity to legislate in protection of game, without anticipating the emergency and thus cluttering the statute books unnecessarily. My observation would be that the tremendous noise made by airplanes is in itself adequate protection of game. From the viewpoint of the sportsman the fear is rather that the great noise of machines propelled through the air will frighten away game during the open season than any undue advantage which might be taken of game by huntsmen while in airplanes. And, of course, everyone appreciates that this is a situation which may not wisely be met by legislation, inasmuch as it is the desire of everyone to encourage the development of aerial science.

Respectfuly,

[SEAL.] WALTER E. EDGE,
Attest: *Governor.*
FRANCIS E. CROASDALE,
*Secretary to the Governor.*

A message was received from the Governor, by the hands of his Secretary, as follows:

April 8th, 1919.

*To the Assembly:*

I return herewith, without my approval, Assembly Bill number one hundred and twenty-one, providing that the salaries to be received by sergeants-at-arms and criers of the Supreme Court and Circuit Court in first class counties shall be fixed by the Justice presiding. Only last year a law was passed, Chapter 201 of the Laws of 1918, placing the salaries of these court officers on a graded basis, based on length of service. This act of 1918 was in accordance with the businesslike policy of basing increases in salary on length of service, and I see no reason for nullifying the act. The provisions in the bill under consideration that the salary so fixed by the Justice shall conform with the salary schedule adopted by the State Civil Service Commission would apparently defeat the purpose of the bill anyway, for the proviso would deprive the Justice presiding of practically all discretionary powers except within the civil service schedule, which would naturally be based on the law of last year. Finally, I question whether it is sound policy for the Legislature to delegate its power of establishing the salaries of such officers.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

Attest:
FRANCIS E. CROASDALE,
*Secretary to the Governor.*

Mr. Kellam moved the Governor's message be received.

The following report was sent to the desk and read by the Clerk:

In the matter of the petition of the Mayor and Board of Aldermen of the Town of Boonton, Morris County, New Jersey, praying for the impeachment of John M. Mills, Prosecutor of the Pleas of the County of Morris, State of New Jersey, referred to the Judiciary Committee of the Assembly, the Judiciary Committee desires to report as follows:

Your committee has examined carefully the petition presented together with the letter to the Hon. Arthur N. Pierson, Speaker of the House, from Justice Charles W. Parker, before whom the plea of the defendant, Thomas A. Reilly, was received.

The committee has also examined the memorandum for the Court of Pardons in the matter of the State *vs.* Thomas A. Reilly, on an indictment of murder, which was prepared by Justice Parker and forwarded to the Court of Pardons. This memorandum includes a transcript of the proceedings held before Justice Parker and Judge Edward K. Mills, of the Court of Common Pleas of Morris County, at which time the Hon. John M. Mills, Prosecutor of the Pleas, appeared for the State and the Hon. Joshua R. Salmon appeared for the defendant, Thomas A. Reilly.

From an examination of these records your committee has arrived at the conclusion that there is no ground for the impeachment of the Prosecutor of Morris County. It is clear that the circumstances surrounding the killing of the decedent, Guiton, were such as to render doubtful the conviction of Reilly on the charge of either murder or manslaughter. From the facts presented it would have been impossible for the State to show that Reilly fired any shots from the revolver which was in his possession. In fact, the testimony shows that the revolver in the possession of Reilly at the time that Guiton was killed was not loaded. In addition, the bullets which entered the body of Guiton and caused his death were from a .38 calibre revolver, while the revolver in the possession of Reilly was a .32 calibre. The only testimony as the possibility of Reilly having fired any shot at Guiton was the general statement of some of those involved in the fight that more than four shots were fired. No one

testified that they saw Reilly shoot at Guiton, and while it was definitely established that one Dennis did fire at Guiton from a .38 calibre revolver, and that Guiton fired back and killed Dennis before he, Guiton, was killed himself.

In view of these facts and the statements of Justice Parker, your committee respectfully submits to the House of Assembly that it has not found sufficient grounds upon which to base recommendations for impeachment.

RALPH N. KELLAM,
*Chairman,*
H. T. HAGAMAN,
WALTER G. WINNE,
HUGH C. BARRETT,
HENRY J. GAEDE.

Mr. Kellam moved that the House concur in the report, and it be spread in full upon the Minutes.

A message was received from the Governor, by the hands of his Secretary, as follows:

April 11th, 1919.

*To the Assembly:*

I return herewith, without my approval, Assembly Bill No. 11. It would seem to me that the degree of supervision which the banking and insurance department of the State now exercises over building and loan associations, as provided in existing laws, including the right of examination, would be sufficient to require from such associations the keeping of a complete register or list of securities such as the bill under consideration provides. Under these circumstances it appears to be unnecessary legislation.

Respectfully,
WALTER E. EDGE,
*Governor.*

Attest:
FRANCIS E. CROASDALE,
*Secretary to the Governor.*

Mr. Kellam moved that the Governor's message be received and spread in full upon the Minutes.

Which motion was adopted.

A message was received from the Governor, by the hands of his Secretary, as follows:

April 11th, 1919.

*To the Assembly:*

I return herewith, without my approval, Assembly Bill No. 12. If there is any demand for such a law it must be merely

to meet a few particular cases, and for this reason I do not believe a general statute is warranted. From inquiries I have made my understanding is that what this bill seeks to do is already interpreted as the law by a great majority of building and loan associations. Furthermore, there may occur instances where the ages between sixteen and majority might not be regarded as the period of discretion, and if it is a fact that building and loan associations have the right to exercise their judgment in special cases, as the introduction of this bill would seem to indicate, then I am opposed in principle to legalizing something which might defeat the purposes for which a parent or guardian had induced an infant to become an investor in building and loan stock. It seems to me that in those particular cases where infants do not show the wisdom and discretion commensurate with their years it may be a wise thing to prevent them from securing and perhaps squandering the savings of years.

Respectfully,
WALTER E EDGE,
*Governor.*

Attest:
FRANCIS E. CROASDALE,
*Secretary to the Governor.*

WILLIAM H. ALBRIGHT,
*Secretary of the Senate.*

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the Printer be instructed to print for general distribution 15,000 copies of the Teachers' Pension Law, now chapter 80 of the Laws of 1920, and to be mailed or forwarded by express to addresses to be furnished by the Speaker.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the House express to the Hon. Arthur N. Pierson, its Speaker, the sincere gratitude of its members over the absolutely fair, dignified and thoroughly impartial manner in which he has presided over the session of 1919. With full appreciation of the peculiar position he has likely often found himself in, presiding over a body composed equally of Democrats and Republicans, and realizing that his high office gave him privileges toward partisan rulings if he chose to take advantage of his office, it is a matter of great pride among the members of the Republican side of the House in particular to feel that throughout the entire session the Honorable Speaker has, without exception, conducted the affairs of the House with the utmost regard for one and all alike, and with a demonstration of his fitness to preside that makes for him a warm spot in the heart and affections of the entire membership of this House.

Mr. Barrett offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of this House be and are hereby extended to the Hon. Ralph N. Kellam, leader of the Republican representation in the House, for the capable manner in which he has assisted in the transaction of the important matters that have come before this body for action. And while the sentiment of this resolution will be fully endorsed and approved by the entire membership, it is with especial pleasure for the Democratic members, through their leader, to record their particular gratitude for the absolute fairness and consideration that has been demonstrated by Mr. Kellam throughout the session. Viewed from the Democratic side of the House, we have found in his entire course the demonstration of a keen sense of responsibility to the people, yet, also, with due regard for the party he represents, both of which interests must agree with us that his record as leader represents a conscientious endeavor to serve fully and fairly—a record that prompts this testimonial of appreciation from those who have been his colleagues in the House.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That we extend the thanks of the House to the Hon. Hugh C. Barrett, leader of the Democratic representation, for the able as well as courteous manner in which he has fulfilled the duties of that position. While at times the views of that part of the House membership opposite to his political faith have not always agreed with those of the distinguished leader, there has never been a period throughout the entire session in which anything but the best of feeling and highest mutual regard was in evidence, and the conclusion of the session of 1919 finds in the hearts of the entire membership that feeling of friendship, love and esteem that cannot but make the Democratic leader feel that he has labored with real men, one and all of whom prize very highly the service he has rendered both his party and the State.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be and they are hereby extended to Edward J. Handley, Clerk; James Parker, Assistant Clerk; James L. McKeon, Assistant to the Clerk; Timothy A. Kelly, Journal Clerk; Joseph H. Brown and Thomas F. Noonan, Assistant Journal Clerks; Richard J. Franz, Sergeant-at-Arms; George Van Brunt and J. Dothrad Dilts, Assistant Sergeant-at-Arms; Edwin M. Johnson, Bill Clerk; William Hanley, Assistant Bill Clerk; Daniel Frascella, Sidney J. Turner and J. R.

Woodruff, stenographers, for the efficient and faithful manner in which they have attended to the affairs of the House during the session.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be and they are hereby extended to Frederick Taylor, Supervisor of Bills, and Milton Jacobus, Louis Diehm and Sidney Collins, Assistant Supervisors of Bills, for the efficient and faithful manner in which they have attended to the duties of their office in the preparation of bills submitted to the House for consideration.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the House hereby expresses its appreciation of the gentlemanly and uniformly kind treatment received at the hands of Byram M. Prugh, the Speaker's Private Secretary, and Charles A. Otto, Jr., the Speaker's Assistant Private Secretary.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be and they are hereby extended to the newspaper correspondents for the fairness with which they have reported the proceedings of the House to their respective newspapers, and to the Legislative News Bureau for its service along similar lines.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be extended to the State Chamber of Commerce for the service rendered through the Legislative Index and the careful preparation of the information therein contained.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be extended to the Postmaster of the State House and his assistants for the efficient and courteous manner in which they have handled the mail for the members throughout the session of 1919.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the Speaker of the House and members of the 1919 session hereby extend their sincere thanks to John A. Smith, Custodian of the Capitol, for the many courtesies and for the able assistance he has rendered the members during this session. His record of courtesy and attention to the many demands made upon him have demonstrated a most willing spirit and the fullest possible endeavor to help make the duties of the membership the most agreeable possible.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House be extended to Walter L. Tushingham, Clerk to the Republican leader, and to John J. Matthews, Clerk to the Democratic leader, for the faithful manner in which they have attended to the wants of the House during the session.

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks and appreciation of the House of Assembly be extended to William Wright, of the State Comptroller's Department, for the efficient and courteous manner in which he has rendered service to the Committee on Stationery and the Committee on Incidental Expenses.

Mr. Kellam offered the following resolution, which was read and adopted:

Mr. Kellam offered the following resolution, which was read and adopted:

*Resolved,* That the thanks of the House of Assembly be tendered to MacCrellish & Quigley Company for the satisfactory manner in which the current printing for the session has been performed and for the accuracy and intelligent manner in which the work has been done.

*Resolved,* That the Minutes of the House of Assembly not heretofore approved by the House, be adopted, subject to the approval of the Committee on Judiciary, and that the said Minutes shall be printed when so approved by said committee.

# Reasons Given by Walter E. Edge, Governor, for filing in the State Library Bills Presented to him for Executive Action.

---

ASSEMBLY BILL No. 52.

April 12, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 52.

This bill would change the provisions of chapter 193 of the Laws of 1876 by providing that only one director of a water works or water supply company need be a resident of the State, whereas chapter 193 provided that a majority of the directors should be residents of the State, and also by eliminating the requirement that notice of election for directors should be given the stockholders. The requirements as to the notice contained in chapter 193 is as follows: "Three weeks' notice thereof shall be given by publication in at least two official newspapers, if so many there be in general circulation in such municipality."

I believe the elimination of both of these requirements, and especially the requirement of notice of election of directors, are unsafe and unwise, and I am unwilling, therefore, to give the bill my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

ASSEMBLY BILL No. 53.

April 12, 1919.

*To the State Librarian:*

I herewith file in the State Library Assembly Bill No. 53 without my approval.

This bill attempts to amend section 8 of chapter 210 of the Laws of 1918 by providing that only one of the directors need

be a resident of this State, and by eliminating the requirement that notice of election for directors should be given to the stockholders. The requirements as to the notice contained in chapter 210 are as follows: "Three weeks' notice thereof shall be given by publication in at least two official newspapers, if so many there be in general circulation in such municipality."

I believe the elimination of both of these requirements, and especially the requirement of notice of election of directors, are unsafe and unwise, and I am unwilling, therefore, to give the bill my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

FRANCIS E. CROASDALE,

ASSEMBLY BILL No. 64.

April 12, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 64.

Instead of expressing the real meaning of this bill in clear and concise language, as all laws ought to do, the drafters of this bill have left the construction thereof entirely to the courts, and this makes the bill undesirable and troublesome, and because of this I withhold my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

ASSEMBLY BILL No. 71.

April 17, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 71.

Lines 41 to 46 of Assembly Bill No. 71 provide that in the case of a corporation engaged in the business of manufacturing or mining in this State as aforesaid, which has all or a part of its shares issued without nominal or par value, the location of the investment of the capital represented by such shares without nominal or par value shall be used in determining the applicability of this act or the deductions to be made as aforesaid. I am wondering if in the case of a corporation which has both par value and non-par value stock, and perhaps more than one kind of each such class of stock, it is always going to be practicable to tell what particular property is represented by any particular kind of stock. For instance, is it not possible that several properties, some located within and some without New Jersey, a corporation might issue both par value and non-par value shares without allocating all or any part of either thereof to the purchase of the New Jersey properties? In such a case I do not see how the riddle is to be solved. While in the ordinary case there might be no such complication, still I do not feel like approving this legislation in view of the doubt.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

ASSEMBLY BILL No. 73.

April 17, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 73.

I have concluded that it is necessary to disapprove of Assembly Bills 71 and 74, which are the bills seeking to give the State non-par value stock legislation, and since the bill under consideration, Assembly 73, simply provides for fees and certain other details under the non-par value system, of course, it is necessary to file this bill in the Library without my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

## ASSEMBLY BILL No. 74.

April 17, 1919.

*To the State Librarian:*

I file herewith in the State Library Assembly Bill No. 74.

Section 121 of Assembly Bill No. 74 provides that a corporation may issue and sell nominal or par value shares from time to time "for money or for the purchase of mines, manufactories or other property necessary for its business, or the stock of any company or companies owning mining, manufacturing or producing materials or other property necessary for its business," etc. There is no express provision in Assembly Bill No. 74 against such shares being issued by a company engaged in trade or commerce for the whole or any part of the share capital of one or more other companies similarly engaged where the effect may be to substantially lessen competition between such companies or to restrain trade or commerce, or tend to create a monopoly, as there is in the case of stock authorized to be issued under chapter 195 of the Laws of 1917. The proposed new law contains an express repealer of all inconsistent acts or parts of acts, and if it becomes a law a question may arise as to whether or not the issue by a corporation of its non-par value shares for the shares of one or more other corporations is subject to this wise prohibition of such earlier legislation, which was enacted only for the purpose of removing some of the unwise and harmful provisions of the "Seven Sister Clause," but of putting our law on this important subject in harmony with the Federal law. It is possible, therefore, that the provisions of section 2 of the Act of 1917 would be regarded as repealed by this later act, and that the exchange of non-par value shares for similar shares of one or more other corporations, would not be prohibited even though the result were to permit the evil heretofore sought to be prevented by the act of 1917. On account of this doubt, I withhold my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

Attest:

FRANCIS E. CROASDALE,
*Secretary to the Governor.*

## SENATE COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No. 90.

April 14, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Senate Committee Substitute for Assembly Bill No. 90.

Only last year a law was passed placing the salaries of sergeants-at-arms and court criers in first class counties on a graded basis, based on length of service. The act of 1918 was in accordance with the businesslike policy of basing increases on length of service, and I see no reason for changing this method. The bill under consideration would nullify this act of 1918 and would place the matter of fixing salaries of the officials affected in the hands of the judges of the various Courts of Common Pleas. I like the plan provided in the 1918 statute much better, and therefore withhold approval to this bill.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

Attest:

FRANCIS E. CROASDALE,
*Secretary to the Governor.*

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 108, for the reason that, in the first place, I consider the increase provided under the bill as a questionable one, and in the second place, the bill is defective in form, as it purports to be an amendment to "An act concerning District Courts" (Revision of 1898), whereas it is really a supplement, and, therefore, cannot have my approval.

## ASSEMBLY BILL No. 147.

April 15, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 147.

This bill would permit associations of spiritualists to incorporate under the General Religious Society Act of 1873. The effect of the bill might be to exempt from taxation the property of spiritualist societies, providing the organizations were to prove that their buildings were actually and exclusively used for religious worship. As I am opposed to the extension of the tax exemption policy, I withhold my approval.

## ASSEMBLY BILL No. 161.

April 17, 1919.

*To the State Librarian:*

I herewith file in the State Library Assembly Bill No. 161, without my approval.

I cannot approve this bill for the reason that it is defective in construction. The bill is clearly inoperative because it seeks to amend a title which no longer exists, having been changed by Senate 160, now Chapter 97, P. L. 1919, approved April 11th, 1919.

## COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No. 165.

April 15, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Commitee Substitute for Assembly Bill No. 165.

This amendment has many commendable features, but likewise covers many misdemeanors under the Crimes Act, and thereby permits a smaller penalty to be imposed than is now provided. The opportunity for abuse under such a bill would be great. I am constrained to believe that the bill, if enacted into law, would even operate to lighten the penalty against persons convicted of violating the laws against white slavery. I have no doubt that the intention of the Legislature was good, but it permits of so much abuse that I withhold my approval.

## ASSEMBLY BILL No. 189.

April 15, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 189.

I recognize that this legislation is intended to meet particular cases where the enactment of such a law might result in much good. Nevertheless, I hesitate to approve the bill for the reason that as a general proposition I feel it is against the interest of morality.

## ASSEMBLY BILL No. 171.

April 15, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 171.

I would approve this bill if it provided alone for the raising of the salaries of the assistant prosecutors of first class counties from $4,000 to $5,000, as I feel that $5,000 is not too large a salary for a competent assistant prosecutor with the great amount of work he is called upon to perform in counties of this class. But the bill, in addition to raising the salaries, also increases the number of assistant prosecutors from three to four. In Essex county there are but two regular assistants, and I am informed, from time to time, when necessary, special assistants are retained. This practice has also been in effect in Hudson county, I understand, and, of course, can be continued without this bill. If the bill is approved providing for four assistants, I assume that four will be appointed, and I believe all of the interests of each county could be protected through the present plan of using special assistants as required.

[SEAL.] WALTER E. EDGE,
*Governor.*

## ASSEMBLY BILL No. 200.

April 17, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 200.

While the purpose of this bill is most commendable, I cannot give my sanction to the method of appropriating moneys which is provided for in section 14. This section provides for a mandatory annual appropriation of $3,000, to continue indefinitely, the money to come out of the treasury belonging to the general funds, and not otherwise appropriated. On numerous occasions the Administration has given notice of its opinion that this method of appropriating money, entirely aside from the regular

appropriation bill and without regard to the wishes of succeeding Legislatures, is not in line with the policy of business which the State has been attempting to follow. For this reason, and this reason alone, I withhold my approval.

ASSEMBLY BILL No. 207.

April 17, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 207.

The intent and purpose of this bill are good and I approve of both. However, the bill is so drawn as to strike a blow at the civil service system in this State. I refer particularly to section 2, wherein power is given to the board of managers of a county hospital to appoint and to remove at pleasure not only a superintendent or warden, but also such other officers or employees as they may deem necessary. This means that all employees under the superintendent or warden are automatically taken out of the civil service, and the bill is, therefore, bad in principle.

I find another objection in section 4, which apparently allows the issuing of emergency notes or bonds if an appropriation has not been made to maintain the hospital. It appeals to me that this is a loose method of financing.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

FRANCIS E. CROASDALE,

ASSEMBLY BILL No. 210.

April 11, 1919.

*To the State Librarian:*

I hereby file Assembly Bill No. 210 in the State Library without my approval.

The present Civil Service Commission is the result of a reorganization of civil service put into effect under my recommendation at the Session of 1917. The terms of commissioners under the reorganization bill are five years. I selected the Civil Service Commissioners, as provided, by the bill, and the term of said commissioners has not been half served. It is inconceivable to approve a bill raising a salary of these officers even before the end of the first five-year term.

I thoroughly appreciate the importance of this work, but the positions are not such as to require the entire time of the commissioners, and such service is not expected. If it was, of course, the salary of two thousand dollars would be totally inadequate. From my personal knowledge, a majority, if not all of the members of the commission, are engaged in other business, which it is expected they should be, and, therefore, I do not measure the salary of two thousand dollars at all from the standpoint of expecting for the State the entire time of the members of the commission.

In addition to this, any efforts to increase the salary of any official before he has at least served out the original term for which he was appointed, is a practice which should be emphatically disapproved.

[SEAL.] WALTER E. EDGE,
*Governor.*

ASSEMBLY BILL No. 219.

April 15, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 219.

There has not been any provisions made in the appropriation bill for any increase whatever, so that if approved there would be no funds from which to pay such increase.

While I am convinced that there should be a readjustment of salaries of the county superintendents of schools, at the same time I am not satisfied with the classification as provided by this bill. It is well known that particularly in the counties having larger populations that the responsibility of the superintendency of schools is to a great extent divided because of many city superintendents, where in many large rural counties there are no city superintendents and a county superintendent has the entire responsibility. Therefore, it does not appeal to me as an equitable classification to use the ordinary classification of counties as considered in arriving at salaries for county judges, prosecutors, sheriffs, etc. Again, I cannot approve of the provision of a minimum and maximum, the exact amount to be decided by the Commissioner of Education with the approval of the State Board. This, in my judgment, will result in great dissatisfaction if all superintendents are not given the same consideration. Salaries for public service must be fixed, and then it is my judgment that for periods of service automatic increases should be allowed, and this policy I have been putting into effect in many departments of the State service. I regret the necessity of this veto because, as stated, I really feel that for this very responsible position some increases are justified, but the bill in the form it reaches me cannot have my approval.

Respectfully,

[SEAL.] WALTER E. EDGE,
*Governor.*

ASSEMBLY BILL No. 232.

April 17, 1919,

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 232.

The effect of this bill is to nullify the so-called Winne Acts, which placed certain offices in first class counties on a self-sustaining basis. The bill excludes the office of county clerk from the provision that salaries and the compensation of deputies and assistants shall not in any year exceed the revenue of the office. In my judgment, the legislation placing offices in first class coun-

ties on a self-sustaining basis, in the interest of economic administration, has met State-wide approval, and I will not be a party to the weakening of it in any respect. I might add that the bill could not be approved under any circumstances for the reason that it has reached me with an amendment, adopted on the last day of the legislative session, in separate typewritten form and in no way a part of the bill which has been presented to me for consideration.

Respectfully,

[SEAL.] WALTER E. EDGE,

ASSEMBLY BILL No. 233.

April 17, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 233.

I withhold my signature from this bill for the same reasons as I gave for withholding approval from Assembly Bill No. 232. It strikes at the principle of self-sustaining county offices as provided for in the so-called Winne Acts, which have met with public approbation. If enacted, it would have precisely the same effect as Assembly Bill No. 232 in that it would permit the salaries of employees of the county clerk's office in first class counties to exceed the revenues of the office. Like Assembly Bill No. 232 this bill also comes to me with the eleventh hour amendment in typewritten form instead of being incorporated into the bill which has been presented to me for consideration.

ASSEMBLY BILL No. 244.

April 12, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 244, for the reason that under Senate Bill 192, now Chapter 98, P. L. 1919, Atlantic and Monmouth counties, which House Bill 244 affects, are given the benefit, along with certain other counties in the State, of a higher maximum salary for county detectives and for a chief detective at a salary practically equalling the maximum which House 244 would fix. Furthermore, Senate 192 permits the length of service which any county detective may have had in a municipal police department to be taken into consideration in ascertaining the length of service on which salary increases are based.

It seems to me that under these circumstances Assembly Bill 244 is unnecessary. I might add that I cannot agree that it is consistent to pay county detectives in counties of 82,000 and 107,000 population, respectively, a higher salary than is paid to detectives in many other counties of the State of considerably greater population, including Passaic with 236,000.

To enact Assembly Bill 244 would be to absolutely destroy any uniformity of county detective salaries among the various counties of the State.

ASSEMBLY BILL No. 254.

April 12, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 254.

The object of this bill is most commendable and I heartily endorse it. The bill, however, provides for a mandatory appropriation of $75,000 to carry out the provisions of the act, *i. e.*, the further development of rehabilitation of industrial victims through the agency of the State's industrial schools. The appro-

priation bill has passed the Legislature without including this item, so that the bill is thus rendered inoperative.

However, another bill, Senate 118, providing for New Jersey's development and further solution of the same problem has become a law and $55,000 has been appropriated in the appropriation bill for that purpose.

I am endeavoring through the appointment of the commission provided by Senate 118 to combine the activities of the industrial schools with the Department of Education, the Department of Labor and such other State agencies as have been working on the subject.

ASSEMBLY BILL No. 257.

April 17, 1919.

*To the State Librarian:*

I file herewith, in the State Library, without my approval, Assembly Bill No. 257, Committee Substitute.

This bill provides a different method of paying the salaries of court interpreters in different counties. This seems to be a very doubtful proceeding and subversive of uniformity. Furthermore, the real purpose of the bill seems to be to pick out one man in one of the counties of the State and to give him certain advantages which would not accrue to other court interpreters in practically the same circumstances. I very strongly disapprove of the principle of such pointedly special legislation.

It is my belief that legislation which would affect proceedings now pending for the altering or vacating of any road might lead to confusion and tend to complicate such proceedings. Pending proceedings ought not to be disturbed, and the approval of this act might have that effect.

Therefore, approval is withheld.

ASSEMBLY BILL No. 281.

April 12, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 281.

This bill provides for the postponement of the first payment on bonds that have been issued for work or improvements authorized under a general act relating to boroughs (Revision of 1897), in cases where the work has been commenced but not completed. This is clearly in violation of Article IV, section 7, paragraph 3, of the State Constitution, which provides, among other things, that "The Legislature shall not pass any * * * law impairing the obligation of contracts or depriving a party of any remedy for enforcing a contract which existed when the contract was made."

The bonds issued by the municipality form a contract between the municipality and the purchaser. The consideration therein expressed, as well as the due date of the principal and interest thereon, represent in all respects a complete contract. Any at-

tempt made by the Legislature to impair the obligation so made, in my mind, is a direct violation of the constitutional inhibition above cited.

ASSEMBLY BILL No. 283.

April 17, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 283.

This bill, while introduced by Assemblyman Finley, of Essex county, apparently only affects in a serious way Bergen and Middlesex and Morris counties. I have heard no expression on the part of Bergen county officials in favor of this bill. The feeling in Bergen county seems to be that the present debt limit is sufficiently liberal and that it is not wise or prudent to increase it. Both Middlesex and Morris counties will receive a substantial return under the provision of chapter 16 of the Laws of 1919. This will relieve the road situation, which is the matter which is urgent in those counties. The bill is the only one passed this session that in any way seriously interferes with the Pierson Finance Law. It would break down the safeguard of our debt limit. The bill provides for increasing the borrowing capacity of counties to the extent of one half per cent. of their average ratables, whereas the present law provides a limit of two per cent. for county indebtedness, but gives an extra leeway of one-half per cent. after the passage of the act so as not to entirely restrict borrowing until such time as the counties can readjust their improvement program. I believe an extension would reflect seriously upon the credit of every municipality and county within the State. The belief that the extension would run only for a year fails to remove my doubt, as once this privilege is granted and used to any degree, it is difficult to blot out the precedent. My doubt is not dissipated either by the fact that the bill originated apparently in Essex county, whereas, as a matter of fact, the legislation can scarcely be needed for counties like Essex and Hudson, which at this time have a free borrowing

power of about $4,000,000, their net debt now being about one and one-half per cent. of their ratables. To approve this bill would be to increase their free borrowing power about three and a half million dollars in each case.

ASSEMBLY BILL No. 298.

April 12, 1919.

*To the Legislature:*

I herewith file in the State Library, without my approval, Assembly Bill No. 298.

This bill is an attempt to do away with the necessity of going through the formalities of extraditing a fugitive from justice where he is willing to waive his right to demand requisition papers for his return to the State in which he is charged with an offense. This would open up a very loose method of securing fugitives from justice and might possibly permit the trumping up of charges against persons, where if they had to go through the formality of requisition papers, such charges would not exist.

Under the provisions of the law the requisition papers are forwarded by the Governor to the Attorney-General to determine

whether they comply with the formalities of the statute, and this protection the fugitive would be asked to waive if this bill becomes a law.

I do not feel that I am ready to let down the bars in the matter of extradition, and, besides, I deem it very questionable whether any legislation affecting extradition is a matter for State legislation. It is a matter governed almost entirely by the Federal Constitution and Federal statutes, and is thus a matter for Federal regulation.

To my mind this bill would give too much power to the Commissioner of Education. I do not believe in putting any obstacle in the way of persons wishing to become nurses, other than is already prescribed in the law. The demand for trained nurses is very great, especially at this time, and for this reason I believe Assembly Bill No. 331 can serve no good or necessary purpose if enacted at this time.

The bill is intended to permit local improvements started under earlier laws to be completed under the provisions of this bill, but it is not apparent to me how the amendment extends the power to complete improvements heretofore started. In its present form the amendment seems to merely make a change in the phraseology of the section without changing its scope and effect.

The object of the bill may be a proper one, but in my opinion the amendment, as drawn, does not accomplish the purpose that is intended.

ASSEMBLY BILL No. 341.

April 15, 1919.

*To the State Librarian:*

I file herewith in the State Library, without my approval, Assembly Bill No. 341.

I can see no real necessity for any such legislation. Chapter 223 of the Laws of 1914 provides that the child to whom a schooling certificate is issued in order that he may work shall be above the age of fourteen years. Chapter 252, Laws of 1914, provides that no corporation, firm or person owning or operating industries shall employ, hire or permit any child under the age of sixteen years to work therein unless that child shall produce an age and schooling certificate as provided by law. Therefore the class of children under consideration in House 341 is that class who are between fourteen and sixteen years of age and yet who have not succeeded in advancing themselves in the schools above the seventh grade, whereas the present law puts the limit at the fifth grade. It seems to me that nothing worth while is to be accomplished by legislating in such a way for children of

that subnormal mentality that has operated against their concluding the seventh grade at their fourteenth year. Normal children certainly complete the seventh grade by the thirteenth year, and, in fact, I have ascertained that the great majority of school children graduate from the high school at seventeen or eighteen or thereabouts. In the case of the child of fourteen years who has not passed their seventh grade of schooling, I should think it would be a hardship to prohibit him from going to work in those cases where the necessity for earning a livelihood is apparent.

ASSEMBLY BILL No. 442.

April 17, 1919.

*To the State Librarian:*

I herewith file in the State Library, without my approval, Assembly Bill No. 442.

This bill is the last of various supplements to an act "to regulate fees," originally passed in 1856. Last year, the last previous supplement was approved on February 18th, in which a classification was made applicable to each county having a population exceeding 140,000 and under 200,000 inhabitants, which was broad enough to escape the constitutional criticism as to the classification being elusory.

This year, by this bill, the classification is limited to between 140,000 and 160,000 inhabitants in each county, a narrow margin of 20,000 inhabitants, which makes a classification with limits so narrow and confined as to make the bill objectionable from a constitutional standpoint, because the classification would, undoubtedly, be held by the courts to be elusory, which invalidates the act, in my opinion.

The restrictions as to population do not seem to bear a reasonable relation to the necessities and proprieties of the grade of municipal government. The line of demarcation which separates the places above 160,000 and below 140,000 from the counties included in this act is so ill-defined as to constitute the attempted legislation as an invasion of the constitution.

I withhold approval for the further reason that the bill is defective in the title and construction, the bill purporting to be a supplement but really amending a section of the former act.

I heartily approve of the principle of this bill, but the difficulty is that it has been drawn absolutely without regard to these classes of business concerns and systems whose operations are so large that it would be a physical impossibility to comply with the provisions of such a statute. Many large businesses have monthly or semi-monthly payment plans which could scarcely be interrupted to meet individual cases without untold confusion and hardship. If there had been exceptions provided for such cases the bill would have been perfectly proper.

*To the State Librarian:*

I would have gladly approved this bill if the increase in salary had not been so out of proportion to other salaries paid district court judges. The raise from $1,800 to $2,600 is almost sixty per cent. and applies to just one judicial district in the State, which, if approved, would make this out of all proportion to other judicial districts where the salary is usually $2,000. I frankly believe every judge presiding over the responsibilities of district courts is entitled to a salary higher than $1,800, but the question should have been handled, as I suggested early in the session, by special message, considering these salaries as

related to each other rather than pick out an individual case. I am, therefore, compelled to disapprove this bill.

The object sought to be accomplished by this bill is all right, but in my opinion the bill is unnecessary. Many institutions of various kinds, of high character, conduct Christmas funds for the benefit of their employees, patrons, etc., and the enactment of this bill into law would work too great a hardship to too many people to warrant its approval in order that it might reach one or two cases of fraud, at which its provisions are most likely directed.

ASSEMBLY BILL No. 492.

April 17, 1919.

*To the State Librarian:*

I herewith file in the State Library Assembly Bill No. 492, without my approval.

This bill seeks to amend an act entitled "An act to incorporate associations not for pecuniary profit," approved April 21, 1898, by striking from section 11 thereof the words "organized under the provisions of this act," and inserting in lieu thereof the words "not for pecuniary profit." The object of this amendment is to permit certain classes of corporations not for pecuniary profit, organized under other acts, to use the machinery of the act in question for the purposes of dissolution. In my opinion, the amendment does not accomplish the object sought for the reason that notwithstanding the amendment no corporation not organized under the act in question would be entitled to use its machinery for the purpose of dissolution. In addition to this, the very title of the act in question is not broad enough to permit of corporations not organized under its provisions to come within its provisions for the purpose of dissolution.

For these reasons, I withhold my approval.

By Mr. Kellam—That the House express to the Hon. Arthur N. Pierson, its Speaker, the sincere gratitude of its members over the absolutely fair, dignified and thoroughly impartial manner in which he has presided over the session of 1919. With full appreciation of the peculiar position he has likely often found himself in, presiding over a body composed equally of Democrats and Republicans, and realizing that his high office gave him privileges toward partisan rulings if he chose to take advantage of his office, it is a matter of great pride among the members of the Republican side of the House in particular to feel that throughout the entire session the Honorable Speaker has, without exception, conducted the affairs of the House with the utmost regard for one and all alike, and with a demonstration of his fitness to preside that makes for him a warm spot in the heart and affections of the entire membership of this House—984.

Kellam, leader of the Republican representation in the House, for the capable manner in which he has assisted in the transaction of the important matters that have come before this body for action. And while the sentiment of this resolution will be fully endorsed and approved by the entire membership, it is with especial pleasure for the Democratic members, through their leader, to record their particular gratitude for the absolute fairness and consideration that has been demonstrated by Mr. Kellam throughout the session. Viewed from the Democratic side of the House, we have found in his entire course the demonstration of a keen sense of responsibility to the people, yet also, with due regard for the party he represents, both of which interests must agree with us that his record as leader represents a conscientious endeavor to serve fully and fairly—a record that prompts this testimonial of appreciation from those who have been his colleagues in the House —985.

By Mr. Kellam—That we extend the thanks of the House to the Hon. Hugh C. Barrett, leader of the Democratic representation, for the able as well as courteous manner in which he has fulfilled the duties of that position. While at times the views of that part of the House membership opposite to his political faith have not always agreed with those of the distinguished leader, there has never been a period throughout the entire session in which anything but the best of feeling and highest mutual regard was in evidence, and the conclusion of the session of 1919 finds in the hearts of the entire membership that feeling of friendship, love and esteem that cannot but make the Democratic leader feel that he has labored with real men, one and all of whom prize very highly the service he has rendered both his party and the State—985.

Smith, the arrangements were made and carried out. It is also desired to record our gratitude for the splendid talent consisting of the Trenton House Orchestra, through the courtesy of Joseph G. # Condensed Record of Executive Action on Bills and Joint Resolutions.

**Convened Tuesday, January 14th, 1919. Adjourned, Friday, April 11, 1919. Duration, Thirteen Weeks.**

An equal political division in the Assembly membership prevented the organization of that branch until the fifth week of the session, when the election of a Speaker and organization of the House was determined by lot. The effect of this delay retarded the work of the session to such an extent that only 80 bills, 42 Senate and 38 House, were delivered to the Governor up to the close of the twelfth week of the session, and the remaining 251 bills and 12 joint resolutions which passed both houses did not reach the Executive Department until the closing hours, leaving the Governor but five days to dispose of more than three-fourths of the proposed legislation which both houses had under consideration for two months.

During the session a total of 760 bills and 21 joint resolutions were introduced, of which number 245 bills and 8 joint resolutions originated in the Senate and 515 bills and 13 joint resolutions originated in the House of Assembly. Of that total 331 bills and 12 joint resolutions passed both houses and were delivered to the Governor, leaving a total of 499 bills and 12 joint resolutions that failed to reach final passage. The Governor approved 261 bills and 9 joint resolutions, making a total of 270 laws for the session of 1919 as against 295 last year. Of the total number of bills and joint resolutions presented to the Governor, executive approval was withheld from 53 bills and 3 joint resolutions, all of which were returned to the house of origin with a veto and later sustained, or filed in the State Library. The Governor also returned to the Legislature by request a total of 21 bills and joint resolutions, 19 of which were returned a second time, 17 becoming laws, and 2 were vetoed. Of the measures from which executive approval was withheld, 11 bills and 3 joint resolutions originated in the Senate and 42 bills in the House. Of the laws for 1919, 116 bills and 4 joint resolutions originated in the Senate, while 145 bills and 5 joint resolutions originated in the House.
